Developer of Alchemy Author, a development tool that allows clients to easily develop web-based training courses. Also develop custom web-based courses for clients on a contract basis.

Manufacturer of disruptive breakthrough technology of patented and proprietary, ultra sensitive, high speed, and high resolution, microarray-based diagnostic tests. These tests are used as nutraceuticals, nutritional supplements, aquaculture, dyes in diagnostic tests and biotechnology, transgenic technology proteins, biodiesel and a multitude of other applications.

A managed application service provider that offers mobility for individual and SME professionals through a secure, hosted server that provides access to personal and company email, calendar and contacts via Microsoft Windows Devices and most data-enabled devices, smart phones and wireless PDA's.

Provider of genetic products & services to customers for their genomic research in all life sciences by means of integrating micro array fabrication & high throughput laboratory facilities. A nationwide leading company in bioassay development and services.

Designer and developer of computer software. Manufacturer and assembler of solar energy systems.

Manufactures and sells their supplier patented technology for "Calcium Sprayed Petrine Dishes"; that allow long product life, and "Charcoal Liquid Scintillation Vials"; that assist Region Test Kits to retailers and wholesalers nationwide.

Developers of proprietary software, Homefree. Homefree is a personalized web-based service that organizes & automates the process of home maintenance. It contains a vast range of features to aid homeowners in managing & maintaining their homes.

Provider of sales & marketing automated software that automatically manages the entire sales process from generating leads & following up, to processing orders & collecting payments. Allowing small business owners to spend less time getting bogged down in daily details of business operations.

Designer and manufacturer of medical devices that help stroke survivors re-learn how to use their paralyzed limbs. Developer of the first neurological rehabilitation devices specifically designed to be used at home by stroke patients.

PlugNet transforms the existing internal electrical wiring in commercial buildings into an intelligent & secure High-Speed network platform, providing users with LAN & Internet access from any existing electrical outlet - without the high costs or disruption typically associated with rewiring a facility.

Developer of an integrated computer self service kiosk for self storage businesses that allow their customers to handle all business from renting a space and receiving a key to making a payment. 24 hrs a day without going in to the office.

Developer and manufacturer of non-invasive tissue regeneration products based on Cell Proliferation Induction Technology. Developer of medical device product: Provent Wound A non-invasive medical device for the treatment of chronic wounds.

A medical diagnostics company developing rapid, specific, and robust tests for the early detection and characterization of diseases and their causative agents, and the screening of drugs for treatment.

Developer of a proprietary system that connects medical devices to a central server (nurse call center) via a cell phone reducing healthcare costs, and promoting active lifestyles by allowing the patients to be mobile.

Developer of a structural thermal envelope panel system used in the construction of residential, commercial, and industrial buildings called the STEP-TECH System which can reduce field framing time by approximately 400 percent.

A privately-held in-vitro diagnostic development company. Holder of an exclusive, global license to bring a new "Women's Cancer" blood diagnostic test, called the RCP Test to the market. The RCP test is effectively an estrogen-related test that will screen for breast, ovarian, uterine and cervical cancers.

Creator of code and limit that queries a database of licensed contractors. Provide homeowners information on contractors in there area that provide the services the homeowner is in need of.

Medical research to develop self-help pain & fatigue management, pain management consulting program for primary care physicians, computerized pain measurement technology, thermal imaging for diagnosing pain, integrated billing software & networked database of pain management information.

The company was formed to exploit opportunities in the communication of BT-Torment Torrent protocol for use in next generation content delivery systems.

Integrate syndicated & custom patient/consumer behavioral & attitudinal databases to help Pharmaceutical clients drive pharmaceutical brand adoption, utilization & loyalty. Seek out & use only highly accurate & adaptable predictive software & technology systems developed by third parties & licensed for exclusive use within the market

The company manufactures & distributes marker boards, tack boards, display boards, projection screens, display cabinets, smart boards, & other visual communication equipment. The company also manufactures portable marker boards, shower doors, and other products.

The company developed a unique drug discovery & diagnostic platform technology that allows drug researchers to simultaneously measure multiple changes in genes. This method is better, faster, cheaper, and generates better quality data than other drug discovery methods currently available.

SB ID #	Company	Qualified	Certification Starts	Certification Expires	Status	Contact	Phone	Location	Business Sector	Description of Activities
SB24	WageWatch, Inc.	Small Business	12/29/2006	12/28/2007	Expired	Randall Pullen	480-657-6507	Tempe	Information Technology	The company is a software technology company that develops & conducts web-based wage, salary, and benefits surveys for multiple industries such as hospitality and healthcare. The software applications enable users to benchmark pay and benefits programs efficiently at local, regional, and national levels.
SB25	Digital Home Lifestyles, LLC	Small Business	10/25/2006	10/24/2007	Expired	Jeff Beall	602-224-9100 x13	Phoenix	Other	The company is a technology solutions and services business targeting the residential marketplace. It designs, installs, and maintains integrated technology systems for luxury residences.
SB27	Jump Box, Inc.	Small Business	4/10/2007	4/9/2008	Expired	Sean Tierney	602-281-4648	Tempe	Information Technology	The company develops custom software of the Jumpbox virtual appliance platform. Consulting work to port vendors' software applications into the Jumpbox platform.
SB28	Clinicogen, LLC	Bioscience Enterprise	1/2/2007	1/1/2008	Expired	James Xia	480-598-5378	Tempe	Life Sciences	The company markets & develops genetic products for clinical diagnosis. Genetic diagnostic product characteristics its high sensitivity & accuracy & has been used for early detection of cancer and other diseases. The company also develops and markets applications. The patented product will be developed in prototype product for clinical applications.
SB29	Profit Keeper Holdings Company, Inc	Small Business	12/28/2006	12/27/2007	Expired	Greg Nielsen	866-301-8050	Mesa	Information Technology	The company provides web-based accounting software to small businesses throughout the country. The software has a patent-pending process & design that allows users to compare each line or account of their results to the average result for similar businesses. This unique feature allows a user to quantify the amount of profits lost.
SB31	Arizona Heart Innovative Technologies, LLC	Bioscience Enterprise	11/22/2006	11/21/2007	Expired	William Colone	602-200-0898 x 1	Phoenix	Other	The company develops medical device products to be used in vascular surgery. The company performs all prototyping, testing, and market research on premises. Completed ideas are then sold to larger medical device companies.
SB32	Construction ePay, Inc.	Small Business	4/5/2007	4/4/2008	Expired	Alan Farber	480-244-8232	Scottsdale	Other	The company provides a software platform that allows consumers to secure payment of contractors for remodeling or renovation work. Platform is web based, automated, and secure.
SB33	Digital Kids, LLC	Small Business	5/7/2007	5/6/2008	Expired	Tom Walters	480-221-6736	Phoenix	Other	The company provides opportunities of kids age 6-14 to become producers & creators of digital media via summer camps, days camps, ongoing memberships & digital tutoring. Technology skills such as web design, film editing, animation, programming & graphic design are emphasized.
SB35	Restorative Biosciences, Inc.	Bioscience Enterprise	5/10/2007	5/9/2008	Expired	Chad Kennedy	480-232-9320	Chandler	Life Sciences	The company develops anti-inflammation therapeutics and medical device coatings.
SB36	Geoternity, Inc.	Small Business	6/20/2007	6/19/2008	Expired	Brian Sitterling	602-476-7426	Gilbert	Environmental Sciences or Sustainable Systems	The company developed patent-pending laser drilling technology and geothermal power generation technology.
SB37	Lifestyle Air, LLC	Small Business	8/7/2007	8/6/2008	Expired	David Dolezal	480-383-9018	Scottsdale	Other	The company designs, develops, and has patented personal filtration devices that capture airborne contaminants. Units are small plastic devices that are inserted just inside each nasal cavity. FDA approval pending.
SB38	HTS-Home Integration Technology Systems, Ltd	Small Business	7/12/2007	7/11/2008	Expired	Joan Parkinson	602-329-5679	Phoenix	Information Technology	The company develops, tests, assemblies, integrates equipment and software, and installs home integration computerized systems that control and connect security, data, voice, entertainment, lights, and appliances through the electrical system.
SB39	Kemeta, LLC	Bioscience Enterprise	6/27/2007	6/26/2008	Expired	Joan K. Vitis, PhD	602-431-4756	Mesa	Life Sciences	The company is commercializing a palm-size breath analyzer and accompanying single-use disposable sensor for the Personal Health Management and Disease Management markets.
SB40	OpenTech Alliance, Inc.	Small Business	7/1/2007	6/30/2008	Expired	Robert Chiti	602-749-9370	Phoenix	Information Technology	Developer of an integrated computer self service kiosk for self storage businesses that allows their customers to handle all business from renting a space and receiving a key to making a payment 24 hrs a day without going in to the office.
SB42	Career Tours, LLC	Small Business	3/13/2007	3/12/2008	Expired	Aaron Bare	602-334-5287	Scottsdale	Information Technology	The company designs and builds advanced web-based tools to enhance the efficiency, effectiveness, and experience of the recruiting process for employers, professionals, and job seekers.
SB43	Algal Technologies, Inc.	Bioscience & Rural Enterprise	7/5/2007	7/4/2008	Expired	Glen Galster	928-474-8669	Holbrook	Life Sciences	Developed a cellular plankton technology for "Calcium Sequestered Plankton Devices"; that allow long product life and "Chlorococcal Liquid Scintillation Vials"; that assists Bardon test kits to retailers and wholesalers nationwide.
SB44	H Chek, Inc.	Bioscience Enterprise	7/10/2007	7/9/2008	Expired	Stephen White	602-667-0155	Phoenix	Life Sciences	Manufacturer of disruptive breakthrough technology of patented and proprietary, ultra pure products that are created from marine, and fresh water organisms. These products are used as nutraceuticals, nutritional supplements, aquaculture, dyes in diagnostic tests and biotechnology, transgenic technology proteins, biodiesel and a multitude of other applications.
SB45	Ethix Media, LLC	Small Business	8/3/2007	8/2/2008	Expired	Michael Stowell	480-219-2199 x14	Scottsdale	Information Technology	Developed a software product, Homeminders, which is a web-based subscription service that provides custom maintenance plans and associated information to homeowners. The technology enables business sponsors to provide Homeminders to client homeowners to care for their homes in just minutes a month.
SB46	Professional Medical Services, LLC	Bioscience Enterprise	7/2/2007	7/1/2008	Expired	Granger Vinal	520-360-1617	Tucson	Other	Company provides procedure coding, billing and revenue recovery services to physician offices. The company provides medical coding and billing services to physician offices to operate in a paperless environment. Company is not owned by nor does it employ licensed medical professionals.
SB47	Presence IT dba iSmartPhone, Inc.	Small Business	9/15/2007	9/14/2008	Expired	Patrick Gilbert	480-905-1655	Scottsdale	Telecommunications	Managed application service provider offering mobility for individual and SME professionals through a simple-to-use, secure, hosted service.
SB49	Global Building Systems, Inc.	Rural Small Business	9/12/2007	9/11/2008	Expired	James Beavers	928-708-9949	Prescott	Environmental Sciences or Sustainable Systems	Developer of a structural thermal envelope panel system used in the construction of residential, commercial, and industrial buildings called the STEP-TECH System which can reduce field framing time by approximately 400 percent.
SB50	RCP Diagnostics, LLC	Bioscience Enterprise	9/14/2007	9/13/2008	Expired	Donald Weber	602-468-0777	Phoenix	Life Sciences	Privately-held, in-vitro diagnostic development company. Developed a new "Woman's Health" diagnostic test for endometriosis. The test is an estrogen-related test. It screens for breast, ovarian, uterine and cervical cancers.
SB51	Interactive Alchemy, Inc.	Small Business	9/7/2007	1/31/2008	Expired	Pat Stoner	602-801-3202	Phoenix	Information Technology	Developer of Alchemy Author, a development tool that allows clients to easily develop and launch online training courses. Also develop custom web-based courses for clients on a contract basis.
SB52	Rilomed Biotechnologies, Inc.	Bioscience Enterprise	9/18/2007	9/17/2008	Expired	Michelle Hanna	602-470-2127	Phoenix	Life Sciences	Molecular diagnostics company developing rapid, specific, and robust tests for the early detection and characterization of diseases and their causative agents, and the screening of drugs for treatment.
SB53	FetchBack, LLC	Small Business	11/7/2007	11/6/2008	Expired	Denise DePaula	602-224-9030	Phoenix	Other	Retargeting network, serving valuable ad impressions to lost prospects after they leave an advertiser's website. The technology enables the company to reach the majority of an advertiser's prospects via a simple self-service interface.

SB247	Port.Bld.Ship., Inc formerly TruckItNow, Inc	Small Business	8/24/2011	8/23/2012	Expired	Janret Harndstreet	520-468-2461	Tucson	Information Technology	Seeks to optimize the process by which shippers of commercial goods source commercial trucks to haul their freight. The have developed web-based software, unique to today's marketplace, that will enable shippers to post loads of freight on their website, and in return, receive a list of qualified carriers. The software is designed to reduce the cost of the volume of freight hauled by trucking companies. Currently, Internet auctions are not being used to facilitate the movement of goods.
SB249	Rehnu, INC	Small Business	8/31/2011	8/30/2012	Expired	Justin Elliott	602-321-9603	Tucson	Environmental Sciences or Sustainable Systems	Development and commercialization of high-concentration photovoltaic solar energy generating systems.
SB253	PINPOB, LLC	Small Business	9/19/2011	9/18/2012	Expired	Nick Labadie	480-202-0781	Tempe	Other	Pinfob, LLC is developing a free website that allows individuals to sign up, become members, and provide consumer information about themselves in order to assist tin the enhanced targeting of advertising and marketing as well as realize fair compensation for the use of their information to direct the advertising and marketing efforts. Pinfob markets its members' information to qualified companies to achieve the enhanced targeting and relevancy of the advertising.
SB254	Kinetic Muscles Inc	Bioscience Enterprise	9/16/2011	9/15/2012	Expired	Ed Koeneman	480-557-0448	Tempe	Life Sciences	KMI designs, develops, and manufactures medical devices that help stroke survivors regain use of their paralyzed limbs. KMI's first device was introduced commercially in 2007 and the second device began test marketing in 2009. KMI has developed the first neurological rehabilitation devices specifically designed to be used at home by stroke patients. This shift to home therapy delivery has great potential to reduce the cost for chronic stroke patients and increase the effectiveness of their treatment. We are seeking angel investors primarily to support business development and commercialization along with continued development of our multi-product pipeline.
SB255	LifeGames, Inc (formerly SalesLife, Inc)	Small Business	10/4/2011	10/3/2012	Expired	John Harbottle	480-614-1665	Scottsdale	Other	a video software publisher in the process of developing a sales training game, digitally based to include simulation and interaction software, with delivery available either online or via DVD.
SB256	Solar Pool Technologies formerly Eco Pool Technologies, Inc.	Small Business	9/22/2011	9/21/2012	Expired	Paul Sim	480-285-9455	Phoenix	Environmental Sciences or Sustainable Systems	Developed a solar-powered pool skimmer, using patents issued in 2006, which significantly reduces the electrical costs for running pool pumps.
SB258	Blogic, Inc	Small Business	9/29/2011	9/28/2012	Expired	Sean Coleman	480-603-8850	Scottsdale	Information Technology	Blogic is an innovative hosted blogging software-as-a-service. The software is unique in that it allows businesses with an established website and online presence to automatically generate a complete blog theme that matches the company's site. The software does an in-depth theme analysis based on a URL to generate a template. The template is used to display the business' blog posts with the same theme. The software includes an easy-to-use blog administration backend for quickly posting real-time blog posts.
SB259	Member Desk, Inc	Small Business	10/26/2011	10/25/2012	Expired	Leon Klepfish	602-481-9661	Scottsdale	Information Technology	All business activity for this company takes place at the principal place of business. All software development, design, marketing and administrative work takes place there.
SB263	AGAVE Semiconductor, LLC	Small Business	11/14/2011	11/13/2012	Expired	Robert Brannen	480-236-6112	Phoenix	Electronics	Agave Semiconductor is a fabless semiconductor company that designs integrated circuits for motor control. Their proprietary technology reduces energy consumption and increases efficiency.
SB264	Plus2 Technologies, LLC	Small Business	11/14/2011	11/13/2012	Expired	Paul Heller	847-858-5242	Scottsdale	Information Technology	Company has created and intends to license an interactive collection software program to allow businesses to collect more of their own debt. Company will oversee customer service and continually update software.
SB265	Global Bluer Skies, LLC	Small Business	11/1/2011	11/2/2012	Expired	Carl Hanson	480-516-4263	Scottsdale	Environmental Sciences or Sustainable Systems	The science of hydrogen generation has been around for decades. Yet the successful application of this technology to diesel engine market still eludes the world. We are developing a hydrogen generating unit for diesel engines. Our unit has multiple advantages over existing technologies. It is more efficient, more reliable, more compact, but not limited to cell design, process control features, and the chemical characteristics of the catalyst.

SB ID #	Company	Qualified	Certification Starts	Certification Expires	Status	Contact	Phone	Location	Business Sector	Description of Activities
SB266	Environmental Technology Solutions	Bioscience Enterprise	11/23/2011	11/22/2012	Expired	Scott Hulsh	480-241-6421	Mesa	Environmental Sciences or Sustainable Systems	Technology created with the US Army Corps of Engineers has been exclusively licensed to ETS. We are commercializing this technology and are ready for full scale production, sales and distribution.
SB267	Stellamar LLC	Small Business	11/22/2011	11/1/2012	Expired	Allan Chin	602-206-6499	Chandler	Electronics	Stellamar is a developer of innovative technologies bridging the gap between analog and digital designs in the mixed signal space of the semiconductor industry. The company produces its technology using proprietary techniques. Stellamar's first patent pending technology allows Analog to Digital Converters (ADCs) to be created using only digital blocks, removing the need for any analog design. This technology solves many problems that plague traditional analog designed ADCs. Our design also offers significant savings in size, power and costs.
SB268	Strongwatch Corporation	Small Business	11/15/2011	11/14/2012	Expired	Michael Powell	520-298-1600	Tucson	Electronics	Human Detection and Surveillance. On the move capabilities, vehicle optic sensor system. High asset protection.
SB269	MedApps Holding Company, Inc	Bioscience Enterprise	12/21/2011	12/20/2012	Expired	Kent Dicks	480-663-3946x110	Scottsdale	Other	Connects patients with their healthcare providers and electronic medical records in order to provide cost effective/efficient supply of medical data providing the ability to remotely manage patient care, reduce healthcare costs and improve patient outcomes. Done using a cloud based system. Provides medical devices to a central server via cellular technology and MedApps' HealthCOM reporting system.
SB273	Engineering Synthesis Design, Inc.	Small Business	12/21/2011	12/20/2012	Expired	David Loynd	520-296-3068	Tucson, AZ	Other	ESD designs, builds and supports instruments and software for surface and wavefront metrology. Our equipment leads the world in characterization of the aspheric configurations found in today's high-performance optics. Our vibration-insensitive technology allows measurements to take place in real time regardless of environmental conditions as well as in the field. Our equipment is used as a standard for the industry standard for analysis of data from any optical metrology source. Our worldwide customer list includes Fortune 500 companies and government and education research labs.
SB274	ReplyBuy, Inc	Small Business	12/15/2011	12/14/2012	Expired	Josh Manley	480-255-5502	Gilbert, AZ	Other	ReplyBuy is developing a proprietary transactional platform (patent pending) to enable simple consumer purchasing via mobile devices by leveraging real-time communications like text messaging, push notifications, IM, etc.
SB278	VisionGate, Inc	Bioscience Enterprise	1/9/2012	1/8/2013	Expired	Scarlett Spring	602-368-2118	Phoenix	Life Sciences	Development of cell and specimen diagnostic testing for lung cancer center for cell diagnostics and cell classifier development. Ongoing instrument development of the Cell-CT.
SB279	Cancer Prevention Pharmaceuticals, Inc	Bioscience Enterprise	2/13/2012	2/12/2013	Expired	Christine Brannen	520-908-7774	Tucson, AZ	Life Sciences	A biopharmaceutical company developing cancer prevention therapies to reduce the risk of cancer for people with elevated risk. The company is initially focused on colon cancer, however, CPM has therapeutic prevention approaches for skin cancer, neuroblastoma, breast cancer, and prostate cancers which will be developed together with the National Cancer Institute and multiple academic partners.
SB280	Response Analytics, Inc.	Small Business	3/21/2012	3/20/2013	Expired	John Harbottle	480-614-1665	Scottsdale	Other	Provides financial services software such as Mortgage Asset Management and Decreased Portfolio Management. Uses data mining and predictive analytics to help lenders make face when acquiring and managing residential whole loans. Incorporates data and models from multiple systems for speed, transparency and other desired attributes.
SB281	Serious Integrated, Inc	Small Business	3/17/2012	3/16/2013	Expired	Michael Rap	602-567-0862	Chandler	Electronics	Enables Original Equipment Manufacturers (OEMs) Electronic Design Firms and hobbyists to replace existing text displays and button interface technologies with graphic-touchscreen interfaces on existing products without significant system redesign. Serious Integrated's technology provides product development with a complete human interface technology solution.
SB282	Medical Referral Source, Inc	Small Business	3/6/2012	3/5/2013	Expired	Joan Tkachyk	520-468-7688	Tucson	Information Technology	Medical Referral Source provides a turnkey, real-time web-based resource called "EASTreferrals" that delivers a solution to both sides of the medical referral transaction: primary care and the specialist physician. Our software is provided to primary care and specialist physicians in our target markets. The service is not designed for use by consumers or other consumers of the service.
SB283	Ability Dynamics LLC (Formerly Population Medial and Shoxstar)	Bioscience Enterprise	2/25/2012	2/24/2013	Expired	J Blount Swain	480-812-5123	Tempe	Life Sciences	Ability Dynamics LLC is a consumer of market development formed to commercialize the manufacture, sales, marketing and worldwide distribution of a line of medically required, non-invasive orthopedic prosthetic lower limb products. Ability Dynamics, LLC has created a unique, innovative-patented device that provides a technologically advanced prosthetic foot designed for individuals who have suffered the loss of a leg and/or foot.
SB284	Awells LLC	Bioscience Enterprise	3/31/2012	3/30/2013	Expired	Monica Brandt	480-884-1732	Scottsdale	Life Sciences	Dedicated to research and implementation philosophy that drives the company's discoveries: create elegant solutions to what are otherwise perceived as complex problems. In 2007 the company was founded in response to a request from a livestock company for assistance in improving the animal health and weight gain. Livestock management is a complex problem that has been the focus of research in the domain of major corporations and universities. In 2008 Awells proposed an elegant solution to the global livestock industry's complex problem.
SB285	Shimwave Technologies, Inc.	Bioscience Enterprise	3/19/2012	3/18/2013	Expired	Laura Perryman	800-965-5134	Scottsdale	Life Sciences	Research and development design and final assembly manufacturing for an implantable neuromuscular medical device, as well as external pulse generator and power supply and accompanying software for the system.
SB286	Rewards Systems, LLC dba Lodearang	Small Business	5/15/2012	5/14/2013	Expired	Ben Huston	480-363-4088	Scottsdale	Other	Lodearang is an online website and mobile application that was founded by three graduates from Stanford University. The company fills a void in the market by giving consumers targeted discounts that don't require coupons while allowing merchants to give their customers a more personalized experience.
SB287	Clear Demand, Inc	Small Business	4/11/2012	4/10/2013	Expired	James Sills	480-818-1205	Scottsdale	Other	Clear Demand is a leading provider of real time monitoring and early intervention solutions for patients with heart disease, specifically Chronic Heart Failure ("CHF"), acute myocardial infarction, post by-pass surgery and atrial fibrillation ("AFIB"). Our goal is to intervene when necessary as part of a coordinated care strategy to prevent avoidable complications for patients, thereby improving the overall quality of care, streamlining healthcare delivery and bending the cost curve.
SB288	Higgle, Inc	Small Business	5/15/2012	5/14/2013	Expired	Darryl Berger	504-650-5869	Scottsdale	Information Technology	Higgle is an internet start-up. Higgle transforms the situated merchant-driven daily-deal space into a consumer-driven environment. Consumers "haggle" with merchants by telling them in real-time, either as an individual or in groups, what they want to buy and the price they are willing to pay. Merchants then compete for that customer's business, at prices attractive to them.
SB290	Panacea Health Solutions	Bioscience Enterprise	4/7/2012	4/6/2013	Expired	Neal Mody	602-799-5575	Mesa	Other	Panacea is a leading provider of real time monitoring and early intervention solutions for patients with heart disease, specifically Chronic Heart Failure ("CHF"), acute myocardial infarction, post by-pass surgery and atrial fibrillation ("AFIB"). Our goal is to intervene when necessary as part of a coordinated care strategy to prevent avoidable complications for patients, thereby improving the overall quality of care, streamlining healthcare delivery and bending the cost curve.

SB291	Green Light Cost Management LLC	Small Business	5/15/2012	5/14/2013	Expired	Matt Davis/Robert Lunny	888-919-5008	Scottsdale	Life Sciences	Green Light Cost Management has developed a web based marketplace, the Green Light Marketplace, that gives Health Care Payers the ability to maximize savings opportunities and reduce Cost Management services fees associated with Out-of-Network (OON) Claims. This game changing technology will increase transparency and competition among Cost Management Vendors. The Green Light Marketplace will pair Health Care Payers with Cost Management Vendors who produce the greatest amount of net savings for the Health Care Payers. All Health Care Payers will realize increased financial benefit coupled with substantial cost management business process and workflow through the streamlined Green Light Marketplace.
SB292	Solvonics, LLC	Bioscience Enterprise	6/20/2012	6/19/2013	Expired	Gerry Harder	480-280-7996	Chandler	Electronics	Solvonics Medical produces portable electronic medical devices designed for broad deployment and rapid adoption. The Company's first product, the Bloodhound Vein Illuminator, is designed to assist nurses with IV insertions, and is currently undergoing clinical evaluation at the University of Arizona Medical Center. Additional medical imaging and lighting products are currently in development.
SB293	Absource, LLC	Bioscience Enterprise	8/29/2012	8/28/2013	Expired	Mark Sholin	480-484-1888	Tempe	Environmental Sciences or Sustainable Systems	Absource uses biotechnology to deliver fast, energy-efficient wastewater treatment for the food and beverage industry, cutting their costs and adding value to their waste resources. With or patient-pending Abbcell bioreactors, we cut the cost of treatment by up to 50% and match or exceed treatment performance, all while generating hydrogen gas as a value-added byproduct.
SB294	eHealth Nexus LLC	Small Business	6/20/2012	6/19/2013	Expired	Michael Mobley	480-538-8700	Chandler	Life Sciences	A bioscience company that operates the GetHealthRecords.com website that sells biomedical information services to patients, caregivers and wellness companies. We will retrieve healthcare records, abstract and transfer these in digital format into web-accessed Personal Health Record accounts to aid the management of chronic or serious diseases. The company manages the development, marketing and deployment of the eHealth Nexus website and associated services. The company is currently in the process of contracting with health records release-of-information service companies and other records resources to deliver requested patient records. Thus, the business model is internet sales of services (analogous to Hotwire.com for hotel services or ServiceArizona.com for vehicle registrations), operating under the security requirements of HIPAA and supporting the conversion to more useful electronic medical records.
SB295	Calimmune, Inc	Bioscience Enterprise	6/3/2012	6/2/2013	Expired	Louis Breton	520-514-8001	Tucson	Life Sciences	Calimmune is a biotech company which is engaged exclusively in research, development, and clinical activities directed to developing a gene therapy for HIV. Qualifying activities in our Tucson office include: Intellectual property transactions; human resource support; contract manufacturing; and clinical research and development of gene therapy for clinical and information and need point management for multiple sites.
SB296	Sooth Media, Inc. formerly Faux Booth, Inc.	Small Business	5/20/2012	5/19/2013	Expired	Michael Rudinsky	602-750-3083	Scottsdale	Information Technology	Faux Booth owns, operate and manages a network of fully-automated digital photo kiosks. It represents the convenience of digital signage, mobile advertising and social networking into a single interactive platform. Faux booth's touch screen interface allows guests to interact with the kiosk and control their experience while engaging with branded content and advertising campaigns. The kiosk utilizes a professional-grade camera and ring flash that produces a unique, high-quality photo. Those photos are instantly emailed to the guest's mobile device and shared online, all while still at the kiosk. Faux Booth also provides an award-winning service to its customers by providing a recommendation of the brand/experience when shared. Email address and other information specific to each guest is captured throughout their interaction with the kiosk. Personalized features such as coupons and other media are also emailed instantly. FauxBooth kiosks are located in entertainment, hospitality and sports venues and generate revenues from advertising, data acquisition and data management.
SB297	Magne Generator, LLC	Small Business	8/20/2012	8/19/2013	Expired	David M. Darling	623-873-2004	Phoenix	Environmental Sciences or Sustainable Systems	Research, develop and manufacture new designs of motors, generators, and alternators. The products will capture reusable energy and converts it into electrical energy. Markets will include: Electric Vehicles, Wind Turbines, Energy Saving Systems, and Power Enhancements Components. Products will qualify users for energy tax credits.
SB298	Contatta, Inc.	Small Business	6/20/2012	6/19/2013	Expired	Pat Sullivan	480-650-7688	Scottsdale	Information Technology	Contatta, Inc. is a one year old Computer software Company that develops and markets Customer Relationship Management (CRM) software for use at companies of all sizes, especially small admit-sized businesses. Contatta is developing a next generation CRM system based on modern platform technologies that will allow our partners and customers to rapidly and economically customize their system to fit their business needs. Contatta already employs 10 Engineers, Software Designers and Marketing Employees in AZ and expects to grow to several hundred into the next few years. Contatta is led by Pat Sullivan, the founder of SaleLogix (a CRM product) which created over 650 jobs in AZ.
SB299	Acudora, Inc	Small Business	6/10/2012	6/9/2013	Expired	Christopher Richied	520-209-2479	Tucson	Electronics	Acudora, Inc. offers electronic applications with provide signal processing technology which increases the performance of a wide range of electronic devices. Acudora has filed the USPTO on Jan. 7, 2011 for the use of a digital signal processing (DSP) application and the core electronic processing technology. Products will include both computer-based software and electronics hardware which will have wide reaching applications in a number of market segments in which sound enhancement benefits the listener. All of the technology has and will continue to be developed in Arizona with a potential to be exported across the United States and Internationally either as computer based software and/or electronic hardware. Our mission is to make sound better.
SB300	Keyware Inc.	Small Business	6/22/2012	6/21/2013	Expired	Anthony Grega	520-795-2392	Tucson	Information Technology	Development and manufacture of patent pending technology that provides cross-platform IT security and policy enforcement through monitoring, recording, access control, notifications and user profile administration.
SB301	First Trace, Inc.	Small Business	6/28/2012	6/27/2013	Expired	Terry L. Simpson	480-490-2393	Phoenix	Information Technology	Develops, markets and sells proprietary document management and workflow software specifically designed to handle the complex version and component relationships inherent to modern engineering related applications. Standards Oriented Architecture (SOA) allows customers to integrate their existing applications with the new software, allowing the enterprise to use one document management system for the entire organization.
SB302	Sollite, Inc	Small Business	8/20/2012	8/19/2013	Expired	Izhar Matzkevich	480-206-3788	Scottsdale	Environmental Sciences or Sustainable Systems	Developing, producing, manufacturing, marketing and selling patented daylight harvesting (solar/LED lighting) Solutions.

We are developing software and hardware applications for the robot, and designating a proprietary line of surgical implants for the spine and brain.
SB304	Cardiobeat.com dba CardioNet Systems	Bioscience Enterprise	7/74/2012	7/23/2013	Expired	George McBride	602-418-0464	Mesa	Life Sciences	CardioNet's heart failure treatment system, "HEART" is a transformational solution for improving outcomes. HEART combines proven medical practices, sound science, and information technology. In clinical practice, HEART eliminated heart failure hospitalizations. Cardiobeat has the right solution to the current dilemma of failing heart failure care. It is simple, proven, cost efficient, and self improving. In total, these attributes deliver a superior standard of care unseen to date.
										MSDX, Inc. is focused on commercializing In Vitro diagnostic (IVD) blood test products for MS. The company discovered a novel source of biomarkers that reflect the disease activity of a Multiple Sclerosis (MS) patient. These biomarkers provide meaningful information that aid in monitoring disease progression and response to drug therapy, predict an impending relapse, and facilitate drug development. MSDx is developing this technology for use in clinical practice, and has established a research and development and clinical laboratories around the world. The company is focused on building the best diagnostic channel for selling proprietary and licensed test kits into the Multiple Sclerosis market. Ultimately this technology can be utilized in other neurological diseases for growth opportunities in the future.
SB305	MSDx Inc	Bioscience Enterprise	7/1/2012	6/30/2013	Expired	Marie Wesselhoft	520-907-3267	Tucson	Life Sciences	
SB306	LoopLogic, LLC	Small Business	8/8/2012	8/7/2013	Expired	Joanna Mitchell	602-667-6234	Scottsdale	Information Technology	LoopLogic is a next generation platform for on-demand presentations that enables the use of slides, videos, product demonstrations, webinars or a mixture of multiple tools to achieve more effective presentations. Customers easily mix, share and track simple or complex presentations. Users are able to navigate through presentations and even customize for quick reference.
SB307	Watershed One, LLC dba EquipRent.com	Small Business	8/20/2012	8/19/2013	Expired	Roberto Guerrieri	480-347-9125	Scottsdale	Information Technology	EquipRent.com offers commercial contractors fast, local and FREE access to unbeatable equipment rental prices/quotes for any type of construction project. Through our proprietary rental quote engine and service, we replace endless hours contracting multiple rental companies, or solution is the smart way to book rentals faster and cheaper.
SB309	Recoleta Partners, LLC	Small Business	8/29/2012	8/28/2013	Expired	Alan Alexander	520-548-4136	Tucson	Information Technology	Recoleta's product is the personal grocery circular, and it will be the most effective loyalty card-based digital marketing solution in the grocery industry. Our personal grocery circular evaluates each shopper's loyalty card data to display customized selections of ads and coupons that fit the t shopper's purchase history and preferences. The Bash'a's grocery chain is Recoleta's initial client.
										ANCERT Associates, Inc. supplies highly specialized Engineering Flight Testing services to the medical device industry. Our services are specifically designed for the development of flight test programs and systems used during the development, testing, validation, and military aircraft certification programs. ANCERT will complement its current business model with the acquisition, modification of an aircraft platform used in airborne product testing, research and development, and proof of concept programs.
SB310	ANCERT Associates, Inc.	Small Business	9/17/2012	9/16/2013	Expired	Gary Griffin	480-247-4300	Scottsdale	Aerospace	Airborne testing includes equipment and components used in Command Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR). Additional capabilities include airborne testing for detection sensors supporting Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE)
SB311	Rehnu, INC	Small Business	8/31/2012	8/30/2013	Expired	Justin Elliott	302-321-9603	Tucson	Environmental Sciences or Sustainable Systems	Development and commercialization of high-concentration photovoltaic solar energy generating systems.
										Post-Bid-Ship. Developed and operates a web-based software platform serving participants in the commercial freight transportation industry. The company operates www.postbidship.com where shippers of commercial freight input details about their freight shipments, then Post-Bid-Ship's software automatically posts the information with the trucking companies. Post-Bid-Ship's software automatically posts the information with the trucking companies. Post-Bid-Ship's software automatically refines trucking companies of potential matching shipments and enables the trucking companies to electronically submit freight bids to the shipper. Post-Bid-Ship filed a U.S. patent application on its freight matching and notification system in November 2011. Business activities that take place at the Arizona principal place of business include system design and development, sales, and customer service and support.
SB313	Post-Bid-Ship., Inc. formerly TruckINNow, Inc	Small Business	8/24/2012	8/23/2013	Expired	Jarret Hanstreet	520-468-2461	Tucson	Information Technology	
										Solar Pool Technologies Inc. has engineered, designed and manufactured a solar pool cleaner that represents an entirely new approach to pool cleaning. By removing the debris from the surface before it sinks, the Solar-Breeze pool cleaner allows home owners to reduce their pool pump run-time by two thirds, thereby significantly reducing their pool's energy consumption and carbon footprint. While the product has already been introduced to the market, certain design issues have been identified. Additional work is required to complete the design and development of the product. Concurrently with work on the Solar-Breeze, the company has started the design work for several other solar-powered pool maintenance products, including a solar-powered bottom cleaner.
SB314	Solar Pool Technologies formerly Eco Pool Technologies, Inc.	Small Business	9/22/2012	9/21/2013	Expired	Paul Sim	480-285-9455	Phoenix	Environmental Sciences or Sustainable Systems	
SB315	LifeGames, Inc (formerly SalesLife, Inc)	Small Business	10/4/2012	10/3/2013	Expired	Jim Robb	602-803-0176	Prescott	Other	Life Games is a Prescott, Arizona-based, video game software publisher focused on developing and distributing cutting-edge games and simulation software designed to enhance the performance of today's professional.
SB316	AdiCytex, Inc.	Bioscience Enterprise	10/9/2012	10/8/2013	Expired	Holly Sparkman	520-399-7532	Tucson	Life Sciences	AdiCytex is an adipose tissue processing and storage facility for autologous use by its clients. You will find more information on our company website, www.asicyte.com. Through AdiCytex, patients can preserve their collected adipose tissue (fat) and powerful adipose derived stem cells for future use in cosmetic treatments for wrinkles, augmentations procedures, reconstructive surgeries, and importantly, in the emerging field of cellular regenerative medicine.
SB317	Instant Bioscan, LLC	Bioscience Enterprise	10/26/2012	10/25/2013	Expired	Anthony Grega	520-404-0395	Tucson	Life Sciences	Instant BioScan, LLC is developing and manufacturing devices that will instantly detect the quality of and determine the viability of microbial particles in water and other liquids. The device will replace current methods that take days or weeks to achieve similar but less accurate results. Instant BioScan also conducts constant innovation for new products and methods for microbial detection in air and water.

SB318	NuOx Pharma, LLC	Bioscience Enterprise	10/31/2012	10/30/2013	Expired	Jennifer Marshall	520-444-2529	Tucson	Life Sciences	Low Oxygen (to the brain and other organs) is responsible for deaths in stroke, heart attack, hemorrhagic shock, cancer resistance and other diseases. NuOx was founded in 2008 to develop the revolutionary potential of nanotechnology for oxygen delivery to treat these life threatening conditions. Our lead product was safe when it was studied in over 2,000 patients as a contrast agent (we have right of reference to these regulatory documents). Our product decreases stroke damage by 80-90% in animals. Since our product is safe, we are now studying it in humans. NuOx is currently in Phase II front line therapy for stroke. Radiation therapy, a cornerstone of cancer treatment, is much less effective against hypoxic tumors and most solid tumors are hypoxic tumors. We submitted a pre-investigational new drug application (IND) to the FDA and received guidance. Our planned Phase 2 trial in cancer patients to show tumor re-oxygenation with imaging validation could lead to a pharmaceutical partnership. A Phase I safety study will antecede our Phase II stroke trial and we should partner for the stroke indication outside the US after completion of Phase II.
SB319	Safe Waters, Inc.	Bioscience Enterprise			Expired	Scott Hulsh	480-241-6421	Mesa	Environmental Sciences or Sustainable Systems	SafeWaters, Inc. has intellectual property around a novel sensor that can detect and identify hazardous pathogens in water. SafeWaters' proprietary technology can detect and identify pathogens in E. Coli as found in bodies of water. Existing technologies generally require 24-48 hours for detection and notification. This time savings can help contain deadly and harmful outbreaks of harsh pathogens.
SB320	Strongswatch Corporation	Small Business	11/15/2012	11/14/2013	Expired	Michael Powell	520-298-1600x 7002	Tucson	Information Technology	Vehicle Optical Sensor System, Human Detection Software, On-The-Move tactical capabilities, High Asset Protection, Research and Development.
SB321	Veetow.com, LLC	Small Business	11/16/2012	11/15/2013	Expired	Nader Yassa	925-330-1999	Mesa	Information Technology	Veetow is a lifestyle Smartphone application that attracts consumers by offering compelling, relevant, real-time, hyper local promotions. Veetow is a 100% free marketing platform that allows merchants to create, submit, and monitor promotions at absolutely no charge. Merchants are only billed when consumers are within their geofence, download the merchant's voucher, and interact with the merchant. Veetow is also a mail and real property owner mobile marketing solution that drives merchant engagement and consumer revenue.
SB322	Temtronics, Inc.	Small Business	12/4/2012	12/3/2013	Expired	Mark Evers	520-760-3260	Tucson	Electronics	The company is engaged in the development of highly efficient thermoelectric technologies that directly convert heat to electricity to cooling. Current development is focused on optimizing soft flexible heating and cooling panels that can be integrated into heating and cooling systems to allow users to control their thermal comfort. The company is also developing new materials to improve the efficiency of thermoelectric materials used to convert heat to electricity.
SB323	Genomics USA	Bioscience Enterprise	11/4/2012	11/3/2013	Expired	Dr. Krishna Jayaraman	847-359-1032	Tucson	Life Sciences	Genomics USA has developed "next generation diagnostics" technology which will revolutionize medicine and public health by allowing for rapid and inexpensive analysis of genetic information in complex diseases such as cancer where multiple genes are affected or over expressed. Genomics USA "Sweet-Spot" technology (protected by U.S. Patent Nos. 7,354,710, 7,667,026 and 8,183,360) simplifies complex, multiple-gene analyses by using a simple, flexible, one-pot, microarray test that can be performed on raw samples thus enabling very high throughput screening at a cost-per-test comparable to serology. Essentially, Genomics USA technology reduces the complexity of multiple gene content into a simple inexpensive test (310 or less).
SB324	Scout Diagnostics, LLC	Bioscience Enterprise	12/11/2012	12/10/2013	Expired	John Bran	502-767-1020	Scottsdale	Life Sciences	The mission of Scout Diagnostics, LLC (SDOUI) is research and development of unique and innovative diagnostic tests and devices for the early detection and diagnosis of cancer. SDOUI has a commercial office in Scottsdale, AZ that will conduct all commercialization activities for launch and sale of the Axiometer Diagnostic.
SB325	RepiBuy, Inc	Small Business	12/12/2012	12/11/2013	Expired	Josh Henley	480-255-5502	Gilbert	Information Technology	This location is used to facilitate development of the proprietary platform being developed to launch the business. Start-up with no other locations.
SB326	VisionGate, Inc	Bioscience Enterprise	1/9/2013	1/8/2014	Expired	David Odum	602-368-2118	Phoenix	Life Sciences	Development of the cell and specimen diagnostic testing for lung cancer. Center for cell diagnostics and cell classifier development. Ongoing instrument development of the Cell-CL.
SB327	Stellamar LLC	Small Business	1/9/2013	1/8/2014	Expired	Allan Chin	602-206-6499	Chandler	Electronics	Stellamar is a developer of innovative technologies bridging the gap between analog and digital designs into the mixed signal space of the semiconductor industry. The company's proprietary technology allows Analog to Digital Converters (ADCs) to be created using only digital logic, removing the need for any analog design. This technology solves many problems that plague traditional analog designated ADCs. Our design also offers significant savings in size, power and cost. Stellamar provides its potential customers faster design time and greatly reduces risk of missing a market window in addition to the substantial size, power and cost benefits.
SB328	Desert Owl Games	Small Business	1/17/2013	1/16/2014	Expired	Arthur R. Griffith	520-243-3655	Tucson	Information Technology	Desert Owl Games produces the free-to-play PC video game, Void Rim. Customers download the game from its website, and purchase digital goods during play for use in the game. New products are added to the game over time in order to attract new customer. The software developed by Desert Owl Games is proprietary and will allow for the rapid production of additional games in the future.
SB329	Adairty, LLC	Small Business	1/17/2013	1/16/2014	Expired	Richard W. Mueller	480-767-6662	Scottsdale	Environmental Sciences or Sustainable Systems	Adairty, LLC (Adairty) is a diversified cleantech company. We use innovative pairing of technology to create products and services that compete favorably on price and performance while reducing humanity's impact on our environment creating a sustainable business model without subsidies. Our focus is on thermal and thermal solar products that are designed and manufactured to be the easiest to install, and the most cost effective to the market.
SB330	Picmonic, LLC	Small Business	1/19/2013	1/18/2014	Expired	Ahmad Yang	480-567-5032	Tempe	Information Technology	Picmonic offers an interactive audio-visual software solution to help student accelerate learning. The software is designed to help students learn and retain information by reviewing the studying and memorizing habits of today's students. The Picmonic team is creating original content and delivering them through a proprietary web application.
SB331	Mistobox	Small Business	1/30/2013	1/29/2014	Expired	Connor Riley	480-603-8453	Phoenix	Information Technology	Mistobox was launched by 2 University of Arizona graduates and is developing and operating a web based software and mobile application platform designated to serve coffee consumers. The technology we are developing will capture customers' taste preferences and create a personalized coffee menu for each customer. Customers are catered to their palate. Mistobox's software automatically captures and registers information on all customers; and uses this information to create custom coffee selections based on characteristics we know the customer enjoys.

Mc Carthy	480-483-6380	Scottsdale	Life Sciences	NeuroEM Therapeutics, Inc. is committed to developing, clinically testing and marketing medical devices which provide Transcranial Electromagnetic Treatment (TEMT) as an effective prevention and treatment of neurological conditions such as Alzheimer's Disease.
SB360	Cardagain, LLC	Small Business	7/10/2013	7/9/2014	Expired	Aaron Rubin	520-270-7722	Tucson	Information Technology	Software Development for a website called Cardagain (the secondary market for collectible cards)
SB361	MSDx Inc	Bioscience Enterprise	7/11/2013	6/30/2014	Expired	Betty R. Waver	520-591-1710	Tucson	Life Sciences	MSDx, Inc. is focused on commercializing In Vitro diagnostic (IVD) blood test products for MS. The company discovered a novel source of biomarkers that reflect the disease activity of a Multiple Sclerosis (MS) patient. These biomarkers provide meaningful information about the disease activity and can be used to predict, prevent, and predict an impending relapse, and facilitate drug development. MSDx is developing this patent pending technology into simple blood test products that will be sold to research and clinical laboratories around the world. The company is focused on building the best diagnostic channel for selling proprietary and licensed test kits into the Multiple Sclerosis market. Ultimately this technology can be utilized in other neurological diseases for growth opportunities in the future.
SB362	Lila Natural Cosmetics, Inc.	Small Business	7/16/2013	7/15/2014	Expired	Pat Stoner	602-889-3031	Phoenix	other	The company has been distributing a water based nail polish that is mostly based on a 3rd party technology with our secret ingredient added in. We have been working on our own formula (with the assistance of contract chemists) for over a year. With that completed we will be able to patent it and increase our revenues dramatically. We need investment to finish the technology (formula), launch the new product and invest in sales & marketing. Today's popular nail polishes are chemicals based and have been proven to cause health issues as well as contribute to smog (through the ventilation of the many nail salons). Our solution will save both of these issues.
SB364	Absource, LLC	Bioscience Enterprise	8/29/2013	8/28/2014	Expired	Mark Sholin	480-703-1130	Tempe	Environmental Sciences or Sustainable Systems	Absource is designing wastewater treatment equipment for breweries, dairies, and potato chip companies. These types of food and beverage companies have a problem using old, inefficient, and expensive treatment systems. We solve that liability through efficient environmentally friendly, and award-winning biotechnology with a three year patent pending. Absource is currently in the process of securing funding to develop a full scale Abscoil implementation among early adopters. The company was founded in 2011 by Mark Sholin, building off of microbial electrochemical cell technology in development at Arizona State University. Our dynamic management team is bolstered by an experienced, knowledgeable board of directors and advisory committee whom are actively engaged. Strategic partnerships we have forged within industry, academia, and the government are invaluable for expediting our path to market and enhancing our value proposition to customers.
SB365	Recoleta Partners, LLC	Small Business	8/29/2013	8/28/2014	Expired	Alan Alexander	520-548-4136	Tucson	Information Technology	Recoleta crates digitally driven Personal Circulars for Grocery Industry. These Personal Circulars are created via Recoleta's Patent Pending technology, utilizing consumer loyalty card transaction information coupled with weekly sale price and coupon offers.
SB366	Wholesalefund, Inc.	Small Business	8/14/2013	8/13/2014	Expired	Dave Albertson	480-221-8980	Scottsdale	Information Technology	Wholesalefund is a technology platform that helps connect CPG manufacturers to convenience store buyers. We operate as a specialized B2B marketplace platform.
SB367	Global Cancer Diagnostics, Inc.	Bioscience Enterprise	8/19/2013	8/19/2014	Expired	Don Robertson	602-690-1922	Tempe	Life Sciences	Global Cancer Diagnostics, Inc. is a Tempe based laboratory that is going to sell and process a blood based diagnostic for the detection of lung cancer in all stages.
SB368	Traklight.com	Small Business	8/31/2013	8/30/2014	Expired	Mary Juetten	602-882-6287	Phoenix	Information Technology	Traklight is a software as a service business that has two proprietary software applications: ID your IP and IP Vault. The software allows customers to identify and track their IP addresses and IP history. The software also allows customers to identify and leverage the IP. The tools are patent pending and currently we are developing additional tools for larger businesses to self perform IP Audits & Intervention Disclosure and to license to attorneys and consultants.
SB369	Solar Pool Technologies formerly Eco Pool Technologies, Inc.	Small Business	9/22/2013	9/21/2014	Expired	Karen Rogers Sim	480-226-2946	Phoenix	Environmental Sciences or Sustainable Systems	The company is in the business of inventing and developing equipment an systems that will make it possible to remove swimming pools from the electrical grid. The first product is a solar-powered robot that continually skims the surface to remove debris. It also dispenses sanitizing chemicals. Additional products are under development. They will also fit into the solar category.
SB370	Botaniso, LLC	Bioscience Enterprise	9/8/2013	9/7/2014	Expired	P. Scott Waterhouse	480-280-4780	Glendale	Life Sciences	The company is commercializing a patented bioscience discovery from the University of Arizona. We have developed the Business Plan including research and product development programs, identified resources needed, applied for SBIR/NH funding and now are implementing early product development. Product development will be completed by the end of 2014. The company is currently in the process of securing funding from the University of Arizona in Oro Valley, AZ. These activities will not begin until funding is received so no activities of the company have been or are currently conducted at BIOS.
SB371	Proactive Lifetime Health , LLC	Bioscience Enterprise	9/18/2013	9/17/2014	Expired	Kirk Saunders	520-977-0351	Tucson	Life Sciences	The core development project/capability of the company is a software platform for collecting, storing, displaying health date and automating the exchange and use of health date ("Health Diary"). We will also develop software applications which will interact with the Health Diary and be used by patients/users, their social networks (including family members), and care providers to collect and put data into the Health Diary, extract and display data from the Health Diary, and function as an automated interactive self-developed/adapt an e-commerce software platform through which are proven to improve their health. Our business model has three components: (i) sell the Health Diary and Applications to institutions (rural health clinics, federally qualified health centers, accountable care organizations, insurance companies, etc.) as a Software As A Service (SAAS) sale, (ii) sell the Health Diary to individual user/consumers on a subscription basis or bundled with other services and productions, and (iii) sell the health related services and products through the institutional and consumer sales channels and e-commerce platform which we will develop to sell the Health Diary.

NLP is developing products to access all web services using natural language processing via our patent pending "ColdSmoker" platform.
SB398	Delivery IT, Inc.	Small Business	1/31/2014	1/30/2015	Expired	Darren Sygrove	602-842-7162	Phoenix	Information Technology	Delivery IT utilizes a software solution for empowering retailers to provide a same day delivery option to their customers. All of which is directly accessed from their cash registers in a familiar way that feels like ordering and paying for deliveries while shopping online. Delivery IT's software solution is designed to be used by the cashier, so less than one would typically pay for a next day shipment from their favorite online vendors.
SB399	Cybersponse, Inc.	Small Business	2/13/2014	2/12/2015	Expired	Joseph Loomis	801-792-7988	Scottsdale	Information Technology	The CyberSponse Cyber Incident Response Platform (IRP) is a patent pending robust stand-alone scalable incident response communication, planning, education and risk awareness system. CyberSponse's deep intellectual property roadmap incorporates artificial intelligence, analytics, automation and streamlining cyber defense technologies all within one secure enterprise solution. This offering bridges the gap between cyber threats and mitigation technology resources and links business directly to onboard tools sets to include; monitoring systems, reporting engines, educational tools, best practices, incident response and incident response training. CyberSponse has a proven track record of successful cases, from individual roles to dedicated global incident response team. We accomplish this by incorporating incident response plans, policies, alerts and cyber awareness into actionable and automated tasks, preventative efforts and defense actions that can connect all stakeholders of the organization.
SB400	MistBox	Small Business	1/29/2014	1/29/2015	Expired	Connor Riley	480-603-8453	Phoenix	Information Technology	MistBox was launched by 2 University of Arizona graduates and is developing and operating a web based software and mobile application platform designated to serve coffee consumers. The technology we are developing will capture customers taste preferences and purchasing habits to create personalized coffee recommendations based on their past purchases. The technology we are developing will capture information on all customers, and uses this information to create custom coffee selections based on characteristics we know the customer enjoys.
SB401	Picmonic, LLC	Small Business	1/19/2014	1/18/2015	Expired	Adeel Yang	480-239-4285	Tempe	Information Technology	Picmonic is a interactive web application that delivers original, copyrighted audio-visual mnemonics to improve long term memory retentions, recall, and application of concepts that frequently appear on professional certification exams. Picmonic employs research-backed mnemonics and audio-visual mnemonics to create original, copyrighted mnemonics and illustrations. The interactive audio-visual system ensures students spend less time memorizing information and more time applying it, thereby improving success both on the exam and in professional application.
SB402	NuvOx Pharma, LLC	Bioscience Enterprise	2/10/2014	2/9/2015	Expired	Jennifer Marshall	520-624-6688	Tucson	Life Sciences	Low Oxygen (to the brain and other organs) is responsible for deaths in stroke, heart attack, hemorrhagic shock, cancer resistance and other diseases. NuvOx was founded in 2008 to develop the revolutionary potential of nanotechnology for oxygen delivery to treat these life threatening conditions. Our lead product was safe when it was studied in over 2,000 patients as a contrast agent (we have right of reference to these regulatory studies) and was found to be safe and effective. NuvOx is currently in Phase II clinical trial. The product is safe and only requires a simple IV infusion. It has the potential to become front-line therapy for stroke. Radiation therapy, a cornerstone of cancer treatment, is much less effective against hypoxic tumors and most solid tumors are hypoxic tumors. We submitted a pre-investigational new drug application (IND) to the FDA and received guidance. Our planned Phase 2 trial in cancer patients to show tumor re-oxygenation with imaging validation could lead to a pharmaceutical partnership. A Phase 1 safety study will antecede our Phase II stroke trial and we should partner for the stroke indication outside the US after completion of Phase II.

SB403	Spyt Easy, LLC	Small Business	2/12/2014	2/11/2015	Expired	Robert McKay Fortune	480-252-0130	Scottsdale	Information Technology	Spyt Easy, LLC is developing a mobile application that will connect to the food and beverage industry. The application will be used by restaurants to track food orders throughout and tracking of customer's preferences. The system will eliminate the ability for a criminal to copy customer's credit card numbers as the card will never leave a customer's wallet. The mobile application is offered at no charge for participating restaurants. The mobile application can be customized by the restaurant so that when used by a customer the user interface will take on the specific restaurant's color palate and will even show their logo. This will make the application appear as if it's the restaurant's own creation to help with marketing and branding. Spyt Easy is focused on numerous options in close proximity. With this in mind Spyt Easy will be bringing on a technical sales force to bring restaurants and bars aboard along with train the staff on the benefits of the system so that they are a part of the marketing team to sign up their patrons. Spyt Easy will also sponsor events at restaurants on a regular basis to continue spreading the word along with looking for partnerships with other technology companies. Placing reservations, ordering take out and even notifying a cab for a ride are some examples of future technical partnerships. Once a user base has been established, Spyt Easy will continue to develop new technology and connections to open the door for future innovations and technology jobs in Arizona.
SB404	PlayAbility Toys, LLC	Small Business	2/18/2014	2/17/2015	Expired	Adam Small	520-547-0921	Tucson	other	PlayAbility Toys researches, designs and manufactures multi-sensory toys and other educational products for children with special needs, therapists, parents, and others associated with special needs children.

The first product is a solar-powered robot that continually skims the surface to remove debris. It also collects and stores pool water for use in landscaping. Additional products are under development. They will also fit into the solar category.
SB436	EZ Dump Commercial, Inc.	Small Business	9/10/2014	9/9/2015	Expired	Kiran RajBhandary	949-874-0463	Phoenix	Other	EZ Dump Commercial Inc. is an innovative design and engineering company focused on the waste receptacle needs of the restaurant, hospitality and commercial office markets. Our EZ Dump products are revolutionizing how people think about trash cans. With the EZ Dump product, you can now eliminate the need for a trash can. The EZ Dump product is a trash bag you simply tie the trash bag closed, step on the foot release pedal at the base of the Smartcan™, remove the Smartcan™ body, and then simply discard the trash bag from the EZ Dump Smartcan™ base. We have eliminated having to pull the trash bag out of the Smartcan™ entirely. This reduces the potential for injury by allowing the user to get in a proper lifting position every time. Smartcan™ makes the repetitive task of removing trash faster and easier, allowing the user to do other important tasks, such as serving customers. Smartcan™ also makes bag liner usage more efficient and effective, providing substantial cost savings. All our products are 100% recyclable, manufactured with sustainable and recycled materials, and Made in the USA.
SB437	Spotlight Software, LLC	Small Business	9/19/2014	9/18/2015	Expired	Daniel Schulz	602-325-6955	Phoenix	Information Technology	Spotlight Software develops cloud based SaaS (Software as a Service) solutions for remote teams and sales teams. There is a fundamental shift underway that is disrupting the way we work and the way we sell. The environment is changing. The old way of working of the traditional workforce with "ironworker" "one roof" is obsolete. Rapidly increasing numbers of remote workers, telecommuters, outside contractors, freelancers and those working from home, clearly demonstrate that today's workforce is growing more fractured and distributed. With that comes a significant need to replace the synergies normally associated with working closely together. Spotlight is designed to recreate and augment those synergies. Spotlight is a communication & task management platform designed for the distributed workforce. Our goal is to be the LinkedIn and Facebook of communication & task management for the growing distributed workforce.

SB459	Crowd Mics	Small Business	2/2/2015	2/1/2016	Expired	Tim Holladay	480-734-8232	Mesa	Information Technology	Crowd Mics is an app that turns the audience's smartphones into wireless microphones. It's the first downloadable microphone for live events. Crowd Mics also includes text commenting and live polling. We're all about audience engagement. We are targeting live events, corporate events, and entertainment events. We could be used for schools, religious, business, and entertainment events. Really, any live event. Our office is in Mesa Arizona but people can use Crowd Mics anywhere on the planet.
SB460	NuOx Pharma, LLC	Bioscience Enterprise	2/10/2015	2/9/2016	Expired	Jennifer Marshall	520-444-2529	Tucson	Life Sciences	Low Oxygen (to the brain and other organs) is responsible for deaths in stroke, heart attack, hemorrhagic shock, cancer resistance and other diseases. NuOx was founded in 2008 to develop the revolutionary potential of nanotechnology for oxygen delivery to treat these life threatening conditions. Our lead product was safe when it was studied in over 2,000 patients as a contrast agent (we have right of reference to these regulatory documents). Our product decreases stroke damage by 80-90% in animals. Since our product is safe, we are now studying it in humans. We have received FDA approval for a Phase I study for stroke. Radiation therapy, a cornerstone of cancer treatment, is much less effective against hypoxic tumors and most solid tumors are hypoxic tumors. We submitted a pre-investigational new drug application (IND) to the FDA and received guidance. Our planned Phase 2 trial in cancer patients to show tumor re-oxygenation with imaging validation could lead to a pharmaceutical partnership. A Phase I safety study will antecede our Phase II stroke trial and we should partner for the stroke indication outside the US after completion of Phase II.
SB461	Cancer Prevention Pharmaceuticals, Inc.	Bioscience Enterprise	3/9/2015	3/8/2016	Expired	Christine Brannen	520-908-7774	Tucson	Life Sciences	Cancer Prevention Pharmaceuticals, Inc. (CPI) is a biopharmaceutical company developing cancer prevention therapies to reduce the risk of cancer for people with elevated risk. The Company is initially focused on colon cancer; however, CPI has therapeutic prevention approaches for skin cancer, neuroblastoma, breast cancer, and prostate cancer. CPI is currently preparing for two FDA registration trials for treating the risk factors of colorectal cancer (CRC) in elevated and high-risk groups, including individuals with prior CRC or advanced colorectal adenomas (CDA) and those with genetic risk factors such as familial adenomatous polyposis (FAP). CPI is also supporting a prevention study in neuroblastoma. Although the Company utilizes some out of state subcontractors, all of the R&D activity and data control/management related to potential FDA approvals are conducted from our Arizona headquarters.

SB473	Brightquest, LLC	Small Business	3/15/2015	3/14/2016	Expired	James Brookes-Avery	480-946-0965	Gilbert	Information Technology	Brightquest LLC is a peer-to-peer and task-based advertising network for customer waiting locations, enabling them to up sell their patrons high margin items and collect a share of revenues from third party advertisers whose ads they allow their patrons to see. Brightquest LLC markets its products as services therefore both to venues and to advertisers.
SB474	Clear Demand, Inc	Small Business	4/11/2015	4/10/2016	Expired	John Harbottle	480-614-1665	Scottsdale	Information Technology	Software development / sales and services provider for the retail industry. The Company develops analytical software that helps retailers manage their products and pricing information in their data warehouses. The software uses retailers' pricing rules (and competitor products and pricing information) and optimizes pricing and promotional pricing and makes pricing recommendations to increase the retailer's profits.
SB475	Lattice Biologics, Inc.	Bioscience Enterprises	3/17/2015	3/16/2016	Expired	Cheryl Farmer	602-723-1934	Scottsdale	Life Sciences	Lattice Biologics Inc. (Lattice Biologics) is an emerging leader in the field of cellular therapies and tissue engineering, with a focus on bone, skin, and cartilage regeneration. We develop, manufacture, and market biologic products to domestic and international markets.
SB476	Future Transit Systems, LLC	Small Business	3/18/2013	3/17/2016	Expired	Jeffrey Ericson	602-293-7414	Phoenix	Information Technology	Rubixide is a technology platform that significantly increases the efficiency and reach of fleet operations in low-density cities, using predictive analytics, traffic demand management strategies, and consumer data. We also provide first-in-class account management solutions for transportation that allow clients to create structured transportation solutions for their members, which essentially allows us to become a white-labeled transportation provider for enterprise and institutional clients.
SB477	Picmonic, LLC	Small Business	3/24/2015	3/23/2016	Expired	Adael Yang	480-239-4285	Tempe	Information Technology	Picmonic offers a web and mobile software platform that empowers people to author, share and consume a specialized form of interactive audiovisual digital content called "Picmonic" or "picture mnemonic". Learners anywhere can pay a monthly or annual subscription fee online to access the Picmonic platform. Picmonic's content is created by qualified content contributors. The company initially targeted the 440 thousand medical and nursing students in the US each year and is now expanding into the 20 million students per year college market, who regularly subscribe to study tools and material offered online to improve their academic performance.
SB478	Amazon dba Eggbyte	Small Business	3/27/2015	3/26/2016	Expired	Thomas Martis	480-650-8515	Chandler	Information Technology	Ananau dba Eggbyte is a Personal Web Technology and Services company. We have created a product called The Egg which we plan to Market and Sell to the general public.
SB479	iNanobio, Inc.	Bioscience Enterprises	4/9/2015	4/8/2016	Expired	Mukilan Mohan	602-758-9099	Tempe	Life Sciences	At iNanobio we are developing an ultrafast sensor device capable of sequencing the whole genome within 15 minutes for only \$100, by combining nanopore technology with rapid direct readout (FET) sensor technology. Nanopore sequencing technology allows us to read out DNA sequences in real time and the ultrafast sensor device offers one big limitation: the need to slow down the DNA as it passes through the nanopore, for example in ion-current blockade techniques. We have taken a radically different approach. Rather than slowing down the DNA, we are developing an ultrafast sensor device that can rapidly read DNA as it passes through nanopore at high speeds. We are also developing an advanced proteomics integrated FET nanowire sensor platform for rapid high throughput target identification and kinase-inhibitor drug discovery. Our sensor system can detect protein kinase enzymic activity in high throughput fashion, allowing for the identification and characterization of (relative) kinetics of protein phosphorylation and drug molecule inhibition.
SB480	Tempronics, Inc.	Small Business	4/13/2015	4/12/2016	Expired	Nancy Cooper	520-760-3260	Tucson	Electronics	The company is engaged in the development of highly efficient thermoelectric technologies that directly convert heat to electricity and electricity to cooling. The company is also refining new technologies to improve the efficiency of thermoelectric materials used to convert heat to electricity. Current development is focused on optimizing soft flexible heating and cooling panels that can be integrated into seating and bedding to allow users to control their thermal comfort. Also in development is a battery cooling module using the thermoelectric devices in automotive applications.
SB481	Arete Group, LLC	Small Business	4/16/2015	4/15/2016	Expired	Justin Zastrow	480-823-8122	Tempe	Information Technology	Smart Armor is a mobile device powered, micro-locking security platform. We help solve the fundamental need for personal security, by empowering consumers to lock up their valuables, simply by using their smart device.... we are using the Master BT device (phone/tablet) to control a slave (BLE Beacon) to secure tangible or intangible valuable contents within the Smart Armor enabled unit.
SB482	Oubaki, Inc.	Small Business	5/6/2015	5/5/2016	Expired	Mark Schmidt	520-222-6275	Tucson	Information Technology	Oubaki has developed a technology that provides a B2B solution for employers to increase worker productivity and efficiency as well as improve employee health and wellness. We market this to businesses at 401 (data/vib).
SB483	Webtron, LLC	Small Business	5/12/2015	5/11/2016	Expired	Jason Andrade	602-524-0126	Gilbert	Information Technology	Webtron products reflect the real world demands of web server (internet) security. We provide real-time security solutions for web environments by protecting servers from live attacks. Webtron's products are designed to protect web servers from live attacks launched with no application CPU or RAM costs. In some environments (before Webtron) problems persist and attackers just simply run servers out of ram by crawling high density hosting servers for hours leaving a wake of processes running the system out of ram. These persistent issues will be eradicated and resources will be freed for their intended purpose; normal traffic.

SB484	Rbar Organic	Small Business	5/18/2015	5/17/2016	Expired	Brian Cornelius	520-440-0702	Tucson	Information Technology	Rbar Organic, LLC manufactures and sells a line of energy/nutrition bars. The entire manufacturing and packaging processes are completed at our 17th Street location in Tucson.
SB485	Superior Silica, LLC	Small Business	4/2/2015	4/1/2016	Expired	Carter Poulsen	480-946-0505	Tempe	Life Sciences	The company manufactures highly monodisperse high purity silica nanoparticles and develops products utilizing those particles
SB486	CampusLogic, Inc	Small Business	5/27/2015	5/26/2016	Expired	Chris Horne	602-643-1352	Gilbert	Information Technology	CampusLogic is a student financial aid software as a service (SaaS) company. Colleges and universities subscribe to our financial aid self-service platform to simplify the student experience and lower the cost of administration. CampusLogic's platform provides a simple, wizard-driven user experience that walks students and parents through the entire financial aid process from any device. Our customers have called this platform the "Tutoria of Student Financial Aid".
SB487	Codelucida, LLC	Small Business	6/1/2015	5/31/2016	Expired	Shiva Planjey	520-239-6653	Tucson	Information Technology	Codelucida is an early-stage startup that is developing novel customized error-correcting code (ECC) solutions (which constitute both software and hardware) for flash controllers which are chips that completely handle data management in solid-state drives (SSDs). SSDs are rapidly emerging as the choice of storage medium for both consumer storage applications (tablets, laptops, smartphones) as well as enterprise storage applications (servers, datacenters). This is due to their fast speeds and lower power usage compared to conventional hard disk drives (HDDs). However, SSDs are much more expensive than HDDs, and with the industry trying to aggressively drive down their costs, their reliability and endurance (lifetime) is being sacrificed in order to achieve better price/performance. Codelucida's solutions speed and reliability enhancements along with savings in power and can address the market need for next-generation SSDs. Codelucida intends to license the solutions to leaders in the SSD industry such as Sandisk, Intel, Toshiba etc.
SB488	Endo Vantage	BioScience	6/27/2015	6/26/2016	Expired	Robert S. Green	520-444-1433	Scottsdale	Life Sciences	EndoVantage is the medical device company that is developing and commercializing a medical computer simulation platform that enables pre-surgery planning that improves patient care and decreases healthcare cost. The technology also can be used by medical device companies in product research, development and sales.
SB489	Ryer, Inc. (Previously known as Contatta, Inc.)	Small Business	6/20/2015	6/19/2016	Expired	Ryan Zachar	480-577-9481	Scottsdale	Information Technology	New software development
SB490	Orb Health, Inc.	BioScience	6/25/2015	6/24/2016	Expired	Bryan Kasirns	(802) 830-3028	Phoenix	Life Sciences	Orb Health redefines how consumers, providers and businesses engage in healthcare by unifying the key components of wellbeing into a HIPAA-compliant, connected platform that streamlines access to health data and services. Through the tracking, trending, and analysis of health data, Orb Health provides a comprehensive understanding of health is achieved. Actionable intelligence empowers at-risk patients and preventative care patients to become educated participants and advocates in their own healthcare. The result is the transformation of healthcare (and lives) through a cooperative system that improves medical outcomes while reducing costs and increasing quality of life.
SB491	MSDx Inc	BioScience	12/2/2015	12/1/2016	Expired	Marie Wessenhof	520-907-3267	Tucson	Life Sciences	MSDx, Inc. is focused on commercializing In Vitro diagnostic (IVD) blood test products for MS. The company discovered a novel source of biomarkers that reflect the disease activity of a Multiple Sclerosis (MS) patient. These biomarkers provide meaningful information that aid in monitoring disease progression and response to drug therapy, predict an impending relapse, and facilitate drug development. MSDx is developing this patient pending technology into simple blood test products that will be sold to research and clinical laboratories around the world. The company is focused on building the best diagnostic device for selling proprietary and licensed test kits into the Multiple Sclerosis patient community. Ultimately the technology can be utilized in other neurological diseases for growth opportunities in the future.

SB504	Smart Clinic, LLC	Small Business	4/27/2016	4/26/2017	Expired	Robert Backe	602-432-2358	Paradise Valley	Information Technology	We sell a doctor patient communication platform to medical specialist who want to improve patient outcomes, meet federal requirements and decrease cost. Our Arizona activity includes leadership, sales, marketing and technology development.
SB505	Performance Shading Systems, Inc.	Small Business	5/24/2016	5/23/2017	Expired	Tom Peterson	602-722-5969	Scottsdale	Other	The company manufactures, distributes and sells network enabled, intelligent, automated window shading systems to dealers/retailers throughout North America.
SB506	Aairis, Inc.	Small Business	6/3/2016	6/2/2017	Expired	Jeremy Kelsstrom	480-884-1573	Scottsdale	Information Technology	Aairis provides check-in management software for the health club industry. It's primary customers include YMCA across the nation.
SB507	Neodight LLC	Small Business	1/18/2017	1/17/2018	Expired	Michael Zimmerman	480-332-2338	Scottsdale	Information Technology	Neodight engineers and designs smart, simple, best-in-class technology solutions that treat infant medical conditions within the first few days after birth.
SB508	Cerebrum	Bioscience Enterprise	12/28/2016	12/28/2017	Expired	Gregg Laihi	480-330-3159	Chandler	Life Sciences	Cerebrum sells laboratory information systems software to manage workflow for the clinical and clinical research laboratories and cancer genomics laboratories. Cerebrum's product is a SaaS web-based laboratory information system that provides clinical and pathology-based reporting for clinical and FDA-based clinical trials.
SB509	VisionGate, Inc	Bioscience Enterprise	1/9/2017	1/8/2018	Expired	Scarlett Spring	602-368-2118	Phoenix	Life Sciences	Development of completely new imaging technology, allowing for 3D visualization and automated feature analysis of cells for diagnostic applications, initially targeted at, but not limited to, diagnostic of spumum (phlegm). The technology is aimed at replacing conventional cytologic diagnostic, which suffers from slide based artifacts and interobserver variability. Importantly, the test offered by VisionGate will be the only diagnostic test that identifies patients who would benefit from lung cancer chemoprevention and will be used to identify patients who would benefit from early diagnosis and treatment of precancerous to confirmed presence of cancer.
SB511	SpMyt Easy, LLC	Small Business	5/3/2017	5/3/2018	Expired	Mac Fortune	480-252-0130	Scottsdale	Information Technology	SpMyt Easy markets a mobile payment application that allows diners at partnered bars and restaurants the ability to view their tab in real time, split a tab among a party, close their tab, tip and make payment all through the application. The application will employ a QR code to allow diners to pay a bill, a provision of credit card liability. The addition of a mobile payment application will allow merchants the ability to gather data on their customers spending habits and open the door to a new marketing medium.
SB512	Skilled, LLC	Small Business	5/22/2017	5/22/2018	Expired	Chris Lang	602-568-8365	Buckeye	Information Technology	Software as a service application that manages every aspect of a service contractor's business and allows consumers to book its service online.
SB513	Smart Clinic, LLC	Bioscience Enterprise	5/22/2017	5/22/2018	Expired	Robert Backe	602-432-2358	Phoenix	Life Sciences	We sell a doctor patient communication platform to medical specialist who want to improve patient outcomes, meet federal requirements and decrease cost. Our Arizona activity includes leadership, sales, marketing and technology development.
SB514	Life365, Inc	Bioscience Enterprise	5/23/2017	5/22/2018	Expired	Kent Dicks	888-618-2322	Tempe	Life Sciences	Life365 is a scalable agnostic Digital Health as a Service (DHaaS) Platform. We integrate hardware devices, software systems, and solution provider services to align with enterprise business needs and the health goals of the end users, in order to reach more people and engage them longer.

SB ID #	Company	Qualified	Certification Starts	Certification Expires	Status	Contact	Phone	Location	Business Sector	Description of Activities
SB533	Recoleta Partners, LLC	Small Business	8/10/2017	8/10/2018	Expired	Alan Alexander	520-548-4136	Tucson	Information Technology	We create personalized, digital devices, predominantly for the grocery industry. We also distribute personalized grocery offers through multiple digital channels (e.g. website, email, text message, mobile app, social media).
SB534	Hathority, LLC	Small Business	8/16/2017	8/16/2018	Expired	Philip Bernick	602-492-8566	Tempe	Information Technology	We are currently developing solutions to manage Smart Trash by using IoT (the Internet of Things) to connect people to the City of Phoenix Public Works Department. However, our solution scales to other cities and allows for more efficient waste management, increased recycling rates, increased efficiency, reduce costs, and improve interaction between cities and its residents and ultimately change behavior to reduce waste.
SB535	USEED, Inc.	Small Business	8/31/2017	8/31/2018	Expired	Matthew Racz	602-525-8526	Scottsdale	Information Technology	USEED provides pharmaceutical institutions with modern, all-in-one digital fundraising software that facilitates the development of lasting, affinity-based relationships between institutions and donors.
SB536	Reglagene, LLC	Bioscience Enterprise	9/7/2017	9/17/2018	Expired	Richard Austin	520-235-0365	Tucson	Life Sciences	Gene expression is the translation of your DNA blueprint into the RNA and proteins that maintain your life. Even now your body is making proteins at precisely the right place and time. If this delicate balance is lost, disease results. Especially cancer. Reglagene creates new medicines that control gene expression.
SB537	SMART Neurotechnologies, LLC (aka Smart Brain Aging Inc.)	Small Business	9/13/2017	9/13/2018	Expired	Dr. John DenBoer	855-276-2780	Scottsdale	Life Sciences	We help prevent and/or mitigate the course of dementia through a process of new and novel cognitive intervention. Please see www.smartbrainaging.com for more information.
SB538	Yardhaus, LLC	Small Business	9/18/2017	9/18/2018	Expired	Charles Sidi	480-330-6506	Phoenix	Technology	The business sells kits to homeowners to build Accessory Dwelling units, and the company has developed a software platform that allows homeowners to design and build their own ADUs (e.g. etc.) when an address is entered that uses various APIs and our own data. Data populates into a free design tool.
SB539	Hyver Labs, LLC dba PERSOSA	Small Business	10/2/2017	10/2/2018	Expired	Kirk Morales	602-892-9799	Phoenix	Technology	Hyver is a self-service software platform that allows marketers to implement dynamic website personalization.
SB540	LawVICS, Inc.	Small Business	10/4/2017	10/4/2018	Expired	Dan Jaffe	520-222-8444	Tucson	Technology	LawVICS is a SaaS marketing platform for lawyers. We sell membership to use our software and support, as well as ancillary content creation services using our system.
SB541	Triify, Inc.	Small Business	10/16/2017	10/16/2018	Expired	Michael Wasserman	310-614-4669	Tucson	Technology	A technology platform that is used to help charitable organizations fundraise through livestreams.
SB542	Symple Surgical, Inc.	Bioscience Enterprise	10/20/2017	10/20/2018	Expired	Dan Kasprzyk	928-699-2575	Flagstaff	Life Sciences	Symple Surgical is engaged in the development of a proprietary microwave ablation technology and diagnostic tool for the treatment of liver and lung tumors. The technology uses a combination of electric heating to positively impact the ablation size, ablation depth, and the unique ability to control and direct the ablation pattern with direct clinical feedback. The first target market is Esophageal Cancer and Barrett's Esophagus, the fastest growing solid tumor cancer form in the U.S. The technology is designed to be used in a minimally-invasive manner. Key features include: • Mechanical design of procedural automation and control • Antennae design • Electrical and Mechanical • Coastal cable design
SB543	AMNLCAM, LLC	Bioscience Enterprise	10/21/2017	10/21/2018	Expired	Patrick Vinck	520-444-5326	Phoenix	Life Sciences	AMNLCAM is a medical device company focused on revolutionizing the field of diagnostics by improving through medical device innovation the accuracy of cancer diagnosis. AMNLCAM's technology achieves goals through the development of the OBI device, a 3-Dimensional (3D) imaging device that can accurately image, record, and measure cervical changes during labor. Currently, labor progression is determined by clinicians (nurses, doctors, midwives) using manual measurements with their fingers, which is a subjective and often inaccurate method. AMNLCAM's OBI device provides an objective, non-invasive method to monitor labor progression, which can help to reduce the risk of complications for the mother and child. The current method lacks accuracy and there is a large variability in results using the finger technique as two experts agree on the assessment only half the time. The current examination increases the risk of infection to both mother and child.
SB544	Cyber Reconnaissance, Inc.	Small Business	10/23/2017	10/23/2018	Expired	Angie Godinez	602-799-6362	Phoenix	Technology	Cyber Reconnaissance, Inc. (CYRCOIN™) provides darkwebdeepweb cyber threat intelligence through network intelligence gathering to provide the private and public sectors with the ability to protect their assets. Speedy response and accurate assessment of cyber threats is a top priority for our customers. CYRCOIN™ delivers its solution to customers either directly or through a resellerservice provider. The solution is delivered in either through a web-based interface, as a report, or through an Application Programming Interface (API).
SB545	Pix Health, Inc.	Small Business	10/31/2017	10/31/2018	Expired	Cindy Jordan	520-907-6741	Phoenix	Technology	Pix Health is a patient facing IoT platform that assesses health care organizations and payers find and address their rising risk patient populations by leveraging a patients' biggest influencers, their family and friends. We use patients' mobile devices to track and manage precursors to elevated risk. The platform provides a secure, patient-facing interface that allows patients to track their health and gain valuable insight into the patient's state of mental health and physical symptoms, and allows them to do something to help the patient in real time - before the patient reaches a level of acuity. The Pix platform allows organizations and users to: • Know instantly when patients access an Emergency Department • Empower the patient's network to identify and respond to unique and customizable psychosocial indicators; and • Provide healthcare organizations and their care managers the tools to better understand, identify and intervene with their rising risk population and reduce readmission rates
SB546	Beem Biologics, Inc.	Bioscience Enterprise	11/3/2017	11/3/2018	Expired	Michael Kirksey	602-524-1403	MariCopa	Life Sciences	Beem Biologics researches, develops and manufactures biostimulants, plant growth regulators, biopesticides, and fertilizers from proprietary plant extracts derived from desert shrubs. These biological chemicals are used primarily in agriculture, and may also be used in turf, ornamental, landscape, garden and hydroponic applications.
SB547	DevWorks, Inc.	Small Business	11/14/2017	11/14/2017	Expired	Ross Meyer	602-319-2026	Scottsdale	Technology	The Business' primary Arizona business activity is developing technology to launch a television as a service platform. The technology will enable network operators who are currently unable to provide television services to their customers to do so. The technology will also enable network operators to utilize their existing infrastructure without expensive upgrades from their existing systems.

SB ID #	Company	Qualified	Certification Starts	Certification Expires	Status	Contact	Phone	Location	Business Sector	Description of Activities
SB548	NuOx Pharma, LLC	Bioscience Enterprise	11/15/2017	11/15/2018	Expired	Betty Weaver	520-591-1710	Tucson	Life Sciences	Low Oxygen (to the brain and other organs) is responsible for deaths in stroke, heart attack, hemorrhagic shock, cancer resistance and other diseases. NuOx was founded in 2008 to develop the revolutionary potential of nanotechnology for oxygen delivery to treat these life-threatening conditions. Our lead product was safe when it was studied in over 2,000 patients as a contrast agent (we have right to sell it) and in over 100 animals. Since our product is safe and only requires a simple IV infusion, it has the potential to become front-line therapy for stroke, radiation therapy, a component of cancer treatment, is much less effective against hypoxic tumors and most solid tumors are hypoxic tumors. We submitted a pre-investigational new drug application to the FDA for our product. We are currently in Phase I safety study and our patients to show tumor recognition with imaging validation could lead to a pharmaceutical partnership. A Phase I safety study will anticipate our Phase II stroke trial and we should partner for the stroke indication outside the US after completion of Phase II.
SB549	Microclimatek Corporation	Small Business	11/17/2017	11/17/2018	Expired	Pankaj Sinha	480-717-7378	Chandler	Technology	Microclimatek's first of its kind body temperature regulation device will change the way people manage temperature sensitivities. A wearable air conditioner, code named Adonis Blue, is being designed to dampen the effects of everyday ambient temperature fluctuations and improve quality of life. The design has been optimized keeping in mind the comfort and affordability of broad spectrum of the population. The device is being designed to be used in a variety of settings including residential, military, recreational that add up to over a trillion of dollars. Further market expansion is being pursued in the areas of healthcare in collaboration with fortune 500 companies. The business involves design, manufacturing, sales/marketing for which we expect to employ skilled employees starting 2018 or so.
SB550	PeriEndoscopy, LLC	Bioscience Enterprise	11/21/2017	11/21/2017	Expired	Michael Austin	480-214-9589	Scottsdale	Technology	PeriEndoscopy designs and manufactures dental endoscopy systems and accessories to be used by dentists to perform minimally-invasive procedures. This product is minimally-invasive and low cost and provides better access for the patients. Product is designed in Arizona and is being manufactured in Arizona. Customers will include general dentists and the Veterans Administration and the Department of Defense.
SB551	RxActuator, Inc.	Bioscience Enterprise	11/28/2017	11/28/2018	Expired	Mark Banister	520-440-7764	Tucson	Technology	RxActuator is manufacturing and selling low cost pumps for delivery of injectable medications to animals under the care of Veterinarians.
SB552	Perceptive Sensor Technologies, LLC	Small Business	12/5/2017	12/5/2018	Expired	Jim Heim	520-429-0895	Tucson	Technology	The company has patented technology that is used to inspect, identify and monitor liquids and solids for governmental and commercial applications including detection of chemical weapons, weapon and drug precursors as well as many petrochemical products. The technology can accomplish this from the outside of a container, tank or pipe - without having to open and remove material.
SB553	iTether, LLC	Small Business	12/8/2017	12/8/2018	Expired	Bill Hoffman	480-231-5080	Phoenix	Technology	iTether has developed and sells a patient engagement platform that gives healthcare providers greater access to real-time patient data. iTether gives patients constant access to their treatment plan while giving clinicians access to patients' level of success. The greater degree of accessibility, accountability, and engagement makes treatment more successful adding value to an the patient and provider organization.
SB554	GT Medical Technologies, Inc.	Bioscience Enterprise	12/13/2017	12/13/2018	Expired	Brian Martin	480-653-9388	Mesa	Life Sciences	GT Medical Technologies, Inc. (GTI), is a medical device company based in Arizona focused on improving the lives of patients with brain tumors. Our first device, the GammaTile, is currently being used in prototype form in a clinical trial at Barrow Neurological Institute (BNI) in this ongoing trial, GammaTile treatment than was seen with traditional radiation treatments. Once commercial in 2018, the Company will generate revenues by deploying the technology for the treatment of brain tumors at leading cancer institutions in the US. The Company has made significant progress and expects to be have a commercially available device supported by strong reimbursement in 2019.
SB555	Hamilton Disillers Group, LLC	Small Business	12/27/2017	12/27/2018	Expired	Stephen Paul	520-628-9244	Tucson	Other	We make American Single-malt whiskies using the Scottish model of whisky-making, maturing and bottling. We are the only American distillery to produce a single-malt whisky in the style of the Scotch of the American Southwest, the malt for which we dry over a mesquite fire instead of a peat fire as they do in Scotland. Our matting system is a prototype tank-based system that does not exist anywhere else.
SB556	Resonae, Inc.	Bioscience Enterprise	1/5/2018	1/5/2019	Expired	Kristin Stokan	408-757-3601	Scottsdale	Technology	Headquartered in Scottsdale, Arizona, Resonae was founded to develop a new standard for sleep medicine. Resonae's mission is to develop medical-quality sleep diagnostic tools that are directly accessible to consumers, in order to accelerate the detection and treatment of often hidden sleep disorders. Resonae developed its first product, the DROWZLE disease management system, as a mobile software system that uses proprietary validated sound algorithms to provide an easy way to record and analyze sleep troubling patients.
SB557	MyLife Mobile, LLC	Small Business	1/16/2018	1/16/2019	Expired	Chris Damron	623-764-7471	Scottsdale	Technology	MyLife is a geo-location based platform and mobile application that allows a user to select interests that are hyperlocal to the user or a specific location. MyLife learns using Artificial Intelligence, what is important to that individual and then provides relevant events and things to do.
SB558	Motion Warriors, LLC	Small Business	1/24/2018	1/24/2019	Expired	Kristin David	623-551-2769	Anthem	Technology	Motion Warriors is a manufacturing company that designs and builds cutting edge solutions for the film and broadcast industries. Our premier product, the Stealth Motion Control System, automates the film production and content creation process, improving productivity and creativity.
SB559	Disruptive Labs LLC d.b.a. cofManage	Small Business	2/7/2018	2/7/2019	Expired	Dan Dempsey	520-360-0590	Tucson	Technology	ECB property management software-as-a-service for property managers, investors and contractors. cofManage is a unified property management platform.
SB560	bioSynagma, LLC	Bioscience Enterprise	2/15/2018	2/15/2019	Expired	David Richardson	602-516-2199	Phoenix	Life Sciences	bioSynagma is a precision medicine company dedicated to transforming how cancer is treated by providing sleep data on the uniqueness of each person's cancer. The company's Molecular Fingerprint™ (mPrint™) platform creates a comprehensive, multi-omic and spatial profile of issue to get a complete and informed understanding of the patient's cancer so they can be matched with the right treatment and the most effective course of therapy that prevents acquired drug resistance.
SB561	Data Driven Diagnostic Sciences, Inc., dba D3Sciences	Bioscience Enterprise	3/14/2018	3/14/2019	Expired	Nicholas W. Lim	720-560-3542	Tucson	Life Sciences	D3Sciences is dedicated to the development of tests for improved cancer sampling and cancer diagnosis. The company's proprietary technology, the Edge™, is a next generation biopsy instrument capable of harvesting up to 200 times more tissue than contemporary core needle or vacuum assisted biopsy devices. Using electrosurgical and electrocautery technologies, Tracey™ Edge minimizes the risks of complications from bleeding and tumor seeding.

SB ID #	Company	Qualified	Certification Starts	Certification Expires	Status	Contact	Phone	Location	Business Sector	Description of Activities
SB562	Temtronics, Inc.	Small Business	3/19/2018	3/19/2019	Expired	Nancy Cooper	520-760-3260	Tucson	Electronics	Temtronics designs, builds and sells thermoelectric components and systems for use in the automotive, motorcycle, office seating, wearables, commercial vehicle, emergency vehicle and consumer bedding markets.
SB563	Engine Solutions Technology, LLC	Bioscience Enterprise	3/19/2018	3/19/2019	Expired	Courtney Williams	520-485-9905	Tucson	Life Sciences	Engine Solutions Technology, a leader, sell others or build into a portable, affordable machines. We sell our mobile ultrasound software to doctors and clinics who want to provide ultrasound outcomes at the same quality, we integrate on-demand diagnostics, and our technology is 7-10x cheaper than a regular machine.
SB564	Swift Coat, Inc.	Small Business	3/19/2018	3/19/2019	Expired	Peter Fith	623-363-2687	Peoria	Technology	Swift Coat Inc. was founded to dramatically improve functional nanoparticle technology solutions, including the development of a new generation of nanoparticle coatings for a wide range of applications. Nanoparticle coating technologies available today lack the scalability and flexibility that the marketplace demands. Swift Coat has developed technology that is far superior to existing nanoparticle manufacturing processes, namely in the following three ways: - Swift Coat's technology is indifferent to the size of the particles being coated, allowing for a wide range of applications and a wide range of competition. - Swift Coat's technology can control how nanomaterials pack together to form a coating. The company's most profitable and scalable business model is to license its coating technology and earn a royalty on every square foot of coating produced. The path to a license agreement flows through the phases of coating research, development and prototyping services, pilot line testing, and process integration and manufacturing, each of which generates revenue for the company.
SB565	NanoPEC, Inc.	Small Business	3/21/2018	3/21/2019	Expired	Mario Blanco	520-402-9200	Tucson	Life Sciences	NANOPEC creates BSB Sustainable Nanotechnology Solutions. Its leading product is a Nano-structured Ceramic Film which has applications in Bio-filtration and as a media material for phonics and hyperlenses.
SB566	vCandidates, LLC	Small Business	4/19/2018	4/19/2019	Expired	LT Ladino Bryson	480-223-9049	Phoenix	Technology	We are developing a SaaS platform that connects subscribers more effectively and speeds up the search, scoring and hiring process.
SB567	Regulonix Holding, Inc	Bioscience Enterprise	4/29/2018	4/29/2019	Expired	Michael Samber	650-207-3480	Tucson	Life Sciences	Regulonix is developing non-surgical therapeutics for the treatment of chronic pain. These therapeutics will be non-addictive and safer than other pain relievers on the market.
SB568	StimAire, Inc.	Bioscience Enterprise	4/30/2018	4/30/2019	Expired	Tarek Makani	520-360-0823	Tucson	Life Sciences	StimAire is commercializing a patent-pending neuro-stimulation system that eliminates the invasive surgery required by current devices. This is a platform technology, but the first disease state to be treated is chronic pain. The system is a non-invasive, non-drug, non-surgical, non-addictive, and non-toxic device that can be used by patients at home. The system is a non-invasive, non-drug, non-surgical, non-addictive, and non-toxic device that can be used by patients at home. The system is a non-invasive, non-drug, non-surgical, non-addictive, and non-toxic device that can be used by patients at home.
SB569	Codelucida, Inc.	Small Business	5/2/2018	5/2/2019	Expired	Shiva Planjany	520-239-6653	Tucson	Information Technology	Codelucida, Inc. is an early-stage semiconductor intellectual property (IP) licensing company that develops new cutting-edge error-correction for next-generation data storage and communication systems. Error-correction is a critical piece of technology driven by sophisticated algorithms that protect data from corruption. Codelucida's technology is a new type of error-correction that causes less loss of data, corrupted files, system crashes, etc. Codelucida's initial target application is the flash memory (which is the type of storage media used today in smartphones, as well as in computers, laptops and data centers in the form of solid state drives) enabling cheaper, high-capacity, and high-performance flash memory based storage.
SB570	Polycord, Inc.	Small Business	5/7/2018	5/7/2019	Expired	Anoop Agrawal	520-321-7680 ext. 28	Tucson	Information Technology	Polycord Inc. is a technology company dedicated to the development and commercialization of electrochromic ("EC") windows. The EC Windows dynamically tint upon the application of electric voltage and reduce building energy consumption, provide glare control and enhanced thermal comfort. At present all of the operations including R&D are located in Tucson, Arizona.
SB571	ClickIPO Holdings, LLC	Small Business	6/1/2018	6/1/2019	Expired	Gordon Price	480-694-8546	Scottsdale	Information Technology	Financial technology company developing a mobile application that allows users to download the application (available in the App Store and Google Play) connect with a participating on-line registered broker dealer and enter orders to purchase initial public offerings and secondary offerings of securities. The application is a mobile application that allows users to download the application (available in the App Store and Google Play) connect with a participating on-line registered broker dealer and enter orders to purchase initial public offerings and secondary offerings of securities. The application is a mobile application that allows users to download the application (available in the App Store and Google Play) connect with a participating on-line registered broker dealer and enter orders to purchase initial public offerings and secondary offerings of securities.
SB572	Superior Silica, LLC	Small Business	5/11/2018	5/11/2019	Expired	Carter Poulsen	480-946-0505	Chandler	Other	The company manufactures and functionalizes silica micro particles for use in research and industrial activities.
SB573	Forced Physics, LLC	Small Business	5/22/2018	5/22/2019	Expired	Bob Girvin	480-939-4959	Scottsdale	Technology	Forced Physics has introduced a revolutionary change in data center server cooling. Our cost-effective conductor with waterless cooling offers a level of efficiency and environmental friendliness never before possible. A new standard in Green - no water used for cooling and 90% reduction in cooling power.
SB574	InanoBio, Inc.	Bioscience Enterprise	6/5/2018	6/5/2019	Expired	Mukilan Mohan	602-758-9099	Tempe	Life Sciences	NanoBio is developing an ultrafast protein sequencing technology that bypasses the need for expensive and time-consuming mass spectrometry. The technology is a non-invasive, non-drug, non-surgical, non-addictive, and non-toxic device that can be used by patients at home. The technology is a non-invasive, non-drug, non-surgical, non-addictive, and non-toxic device that can be used by patients at home. The technology is a non-invasive, non-drug, non-surgical, non-addictive, and non-toxic device that can be used by patients at home.
SB575	PowerGrow, LLC	Bioscience Enterprise	6/1/2018	6/1/2019	Expired	Sean Lyle	602-469-4546	Phoenix	Life Sciences	We design, develop, finance, build, operate and maintain our renewable powered high-tech glass greenhouses and are developing an IoT Machine Learning hardware and software platform for yield optimization.
SB576	Rowen, Inc.	Small Business	4/25/2018	4/25/2019	Expired	Brandon Willey	480-233-0196	Tempe	Technology	Local business owners want to bring their customers back in the door repeatedly and predictably with a minimal cost & ongoing time investment, but most local business owners have no expertise and no time. We provide fully automated customer retention software that engages each consumer through personalized messages and promotions across the digital channels where they are most likely to take immediate action.

SB577	Repligen Holding, Inc.	Bioscience Enterprise	5/1/2018	5/1/2019	Expired	Richard Austin	520-235-0365	Tucson	Life Sciences	Repligen discovers and develops new therapeutic agents that combat cancer. These are novel therapeutic agents that require full clinical proof of efficacy and safety and regulatory approval (FDA). Our technology is licensed from the University of Arizona.
SB578	PostBusShip, Inc formerly TruckinNow, Inc	Small Business	6/20/2018	6/20/2019	Expired	Janet Hamstreet	480-508-5522	Scottsdale	Information Technology	PostBusShip is an integrated software solution designed to streamline the spot market freight transportation procurement process. PostBusShip's software plugs into a freight shipper's transportation management system (TMS) enabling users to easily send spot market shipments to PostBusShip to perform a reverse auction. Users can invite their current service providers to bid in these auctions, set their own rules for bidding and establish a bid cap. PostBusShip offers TMS customers faster selection of service providers for spot shipments and lower costs through our reverse auction process.
SB579	Smart Clinic, LLC	Bioscience Enterprise	5/22/2018	5/22/2019	Expired	Robert Buckle	602-715-2370	Paradise Valley	Life Sciences	Smart Clinic is a medical imaging platform focused on delivering highly targeted treatment to patients, enabling better preparation for overall health improvement. Our Arizona facility includes development, sales, marketing and support.
SB580	CATS Tonometer, LLC	Bioscience Enterprise	6/29/2018	6/19/2019	Expired	Nannon Rouse	520-370-4113	Tucson	Life Sciences	The Cornealys Association Tonometer Surfaces (CATS) prism is a FDA (510K) cleared device that produces clinically significant improved accuracy in intraocular eye pressure (IOP) measurements for 50% of the population over prism currently available on the market (Goldmann prism, GAT). Studies demonstrated the CATS Prism improves IOP accuracy by 92% over the GAT for this patient population. The CATS Prism is a non-invasive, non-contact, and non-pneumatic device that requires no manual effort required to properly diagnose and treat glaucoma and other ocular related diseases for their patients.
SB581	ITel Companies, Inc.	Small Business	6/16/2018	6/16/2019	Expired	Eric Greenman	480-314-7407	Scottsdale	Life Sciences	ITel provides secure video for telehealth through a Video-as-a-Service (VaaS) model, and a fully integrated with large Electronic Health Record (EHR) platforms with its universal API. ITel brings an end-to-end solution for telehealth, from patient onboarding to secure video sessions. With ITel, both medical and mental health providers can connect with their waiting patients through a secure video session, maintaining their relationship, and continuity or care from the office to their work or home. ITel is based in Scottsdale, Arizona.
SB582	MSDx, Inc.	Bioscience Enterprise	7/2/2018	7/2/2019	Expired	Betty Weaver	520-591-1710	Tubac	Life Sciences	MSDx is focused on commercializing its Video-Diagnostic (VD) blood test products for MS. The Company's blood test products are designed to detect biomarkers that indicate the presence of Multiple Sclerosis (MS) patients. These biomarkers provide meaningful information that aid in monitoring disease progression and response to drug therapy, predict an impending relapse, and facilitate drug development. MSDx is developing this patent pending technology into simple blood test products that can be used in a clinical setting. The Company is currently in the process of conducting the best diagnostic channel for selling proprietary and license test kits into the Multiple Sclerosis market. Ultimately this technology can be utilized in other neurological diseases for growth opportunities in the future.
SB583	Radiance Therapeutics, Inc.	Bioscience Enterprise	7/3/2018	7/3/2019	Expired	Harry George	520-258-9654	Tucson	Life Sciences	Radiance Therapeutics will develop, manufacture (we will use a contract manufacturer), and sell a novel Brachytherapy device for use in glioma drainage surgery to reduce the rate of complications.
SB584	Ryder, LLC	Small Business	7/11/2018	7/11/2019	Expired	Ryan Zachar	480-577-9481	Scottsdale	Technology	Software development related to team communications and task management.
SB585	Naya Energy, LLC	Small Business	7/1/2018	7/1/2019	Expired	Ketan Patel	602-892-3582	Phoenix	Technology	Naya Energy is an energy analytics company focused exclusively on the purchases of power. Naya protects the purchases the power from the unintended consequences from rising utility costs (demand response), the risk of equipment failure, and the risk of critical equipment failure. Our solutions assist in turning their energy data into a strategic asset aligned with their values and business objectives.
SB586	ReplyBuy, Inc	Small Business	7/13/2018	7/13/2019	Expired	Josh Manley	480-339-2295	Scottsdale	Information Technology	ReplyBuy is a mobile platform that combines artificial intelligence, messaging, payments & digital marketing. ReplyBuy has been endorsed across the NBA, NHL, MLS, NFL, as well as with major universities.
SB587	VisionGate, Inc	Bioscience Enterprise	5/22/2018	5/22/2019	Expired	Scarlett Spring	602-368-2118	Phoenix	Life Sciences	Development of a completely new imaging technology, allowing for 3D visualization and automated detection of lesions in the brain. The technology is aimed at replacing conventional cytologic diagnostic, which suffers from slide-based artifacts and interobserver variability. Importantly, the test offered by VisionGate will be the only diagnostic test that identifies patients who would benefit from lung cancer screening. The technology is aimed at closing the diagnostic gap by scoring the results in a range from pre-cancerous to confirmed presence of cancer.
SB588	BAYQ, Inc.	Small Business	7/12/2018	7/12/2019	Expired	Garrett Gray	602-361-8975	Mesa	Technology	BAYQ develops, manufactures, and sells a marketing and business intelligence platform for the automotive industry. The platform is designed to help automotive manufacturers and dealerships to better understand their customers under the SaaS model.
SB589	Karkinos Precision Oncology, LLC	Bioscience Enterprise	8/16/2018	8/16/2019	Expired	Adam Buntzman	919-607-0499	Tucson	Life Sciences	Karkinos Precision Oncology performs research and development of diagnostic tests and precision therapeutics for the veterinary and human oncology fields.

SB594	Desert Valley Tech, Inc.	Bioscience Enterprise	12/4/2018	12/4/2019	Expired	Travis Witke	602-384-6520	Mesa	Life Sciences	Desert Valley Tech aims to achieve increase survival rates in challenging and remote medical environments by increasing the portability of blood with the HemaPorter, a solid chain custody storage and transportation solution for blood, blood components, vaccines, pharmaceuticals, and organs; designed to handle the demands of modern expeditionary medicine. Our patient pending HemaPorter is designed to deliver two units of Fresh Whole Blood, blood components, pharmaceuticals, vaccines, organs and more to the very point of injury, drastically increasing the survivability rate of casualties while providing a greater range of options available to our medical personnel. The HemaPorter is designed to maintain blood at 4°C for 48 hours and is designed to maintain packaged temperatures several days in extreme temperatures while providing real time data confirming cold chain quality of payload. This data tracking will allow viable blood products to extend from 24 - 48 hours to over 30 days (blood is viable for 42 days after collection) in the field if docked, decreasing wastage and unnecessary transportation. We are currently producing our alpha prototype to confirm our performance in a real world setting to determine battery life in extreme environments. Once our prototype testing is complete, we will be courting angel investors to stand up an office in the Phoenix area to create a team to support R&D, manufacturing and sales.
SB595	EndoVantage, LLC	Bioscience Enterprise	12/6/2018	12/6/2019	Expired	Robert S. Green	520-444-1433	Scottsdale	Life Sciences	EndoVantage is building a virtual patient treatment planning center, a virtual medical procedures are planned before treatment and medical devices are robotically tested before patient exposure, in both cases dramatically improving patient care and reducing cost.
SB596	Cerebrum Corporation	Bioscience Enterprise	12/26/2018	12/26/2019	Expired	Gregg Lahti	480-330-3159	Chandler	Life Sciences	Cerebrum sells laboratory Information Systems software to manage workflow for the clinical and clinical trials Analytic Pathology laboratories and clinical genomics laboratories. Cerebrum's product is a SaaS, web-based application to manage the specimen and data information as well as provide pathology based reporting for clinical and FDA-based clinical trials.
SB597	Resonance, Inc.	Bioscience Enterprise	1/6/2019	1/6/2020	Expired	Kristin Stokan	408-757-3601	Scottsdale	Technology	Headquartered in Scottsdale, AZ, Resonance was founded to develop a new standard for understanding sleep breathing health and its impact on the human condition. The Company's mission is to develop a next-generation sleep diagnostic tool that is easy to use and easy to integrate into a doctor's workflow. The DROWZLE disease management system, as a mobile software system that uses scientifically validated sound algorithms to provide an easy way to record and analyze sleep breathing patterns.
SB598	Simple Surgical, Inc.	Bioscience Enterprise	1/25/2019	1/25/2020	Expired	Dan Kasprzyk	928-699-2575	Flagstaff	Life Sciences	Simple Surgical is engaged in the development of a proprietary minimally-invasive technology and electric heating to improve laparoscopic surgery. Simple Surgical's technology is to utilize ability to control electric heating to positively impact the ablation size, ablation depth, and the unique ability to control and direct the ablation pattern with direct clinical feedback. The first target market is Esophageal Cancer and Barrett's Esophagus, a fastest growing solid tumor cancer form in the U.S. The technology is designed to be used in a minimally-invasive manner and includes a combination of procedural automation and control • Antennae design • Electrical and Mechanical • Coaxial cable design
SB599	Mindset Medical, LLC	Bioscience Enterprise	1/31/2019	1/31/2020	Expired	Mark Whitehouse	480-236-5327	Phoenix	Technology	Designing and developing a downloadable Web and mobile application for uploading and sharing personal patient medical information and personal and family health history information. Our MOBILITY DIVISION creates products that offer safety, convenience, and freedom to those disabled by birth defect, disease, injury, or military service. Our CAMERA ROBOTICS DIVISION is currently working on a new product line that will automatically locate the start on powered wheelchair. We design, assemble, and support all our products in our U.S. facility in Phoenix, Arizona. When possible, product components are also sourced in the U.S.
SB775	MECHano, LLC	Small Business	2/1/2022	2/1/2023	Expired	Steven Lowder	480-717-7103	Mesa	Manufacturing	MECHano is an Additive Manufacturing Materials company that focuses on improving several key characteristics of materials for AM (impact resistance, strength, flexibility, conductivity, hydrophobicity, etc.) They have recently had several breakthroughs with their proprietary, discrete Carbon Nanotubes (MECH-H) that have significantly improved the receiving material. MECH-H is the world's only dispersed, carbon nanotube material that is compatible with most AM processes. MECHano has recently secured improvements over current materials available in Additive Manufacturing. Protected by over 70 granted patents and over 39 patent filings. The MECHano Effect on materials is the extraordinary improvements that MECH-H makes on AM material. Testing and trials have shown that MECH-H significantly (10x to 100x) improves Additive Manufacturing part strength, further minimizes build times, and reduces the need for post-processing. MECHano's functionalization and dispersion. Adoption of the MECHano Technology will bring growth in material sales, equipment sales, and service sales – also known as the MECHano Effect on the AM market.

S59219	AlgoFace, Inc.	Small Business	6/9/2026	6/9/2027	Active	Andrew Bart	602-697-6223	Carefree	Technology	AlgoFace makes it easier to build and deploy trusted responsible Face AI solutions. Our B2B & B2G Client Face AI solutions include digital signature verification, machine vision, machine learning and general AI to detect and prevent fraud. Our solutions include edge FaceMesh, iris tracking, head pose estimation, AI frameworks, our 2D facial landmark tracking, 3D face mesh, iris tracking, head pose estimation. Our half segmentation offer enterprise grade accuracy and speed, with minimal power requirements. Our core Face AI Endowment Engine can be used to develop 2D and 3D Face AI solutions across mobile, desktop, embedded systems, IoT/IoV, and the Internet of Things.
S5920	Martone St., LLC	Small Business	5/22/2026	5/22/2027	Active	Ben Kaplan	216-798-5588	Scottsdale	Other	Scott Conant, the founder of Martone Street, created his own pasta sauce brand. He is an award-winning chef who has created a globally recognized brand around Italian cuisine.
S5921	LABirth Studio, Inc.	Rural Small Business	6/8/2026	6/8/2027	Active	Isalah Sears	602-819-9715	Payson	Manufacturing	LABirth Studio, Inc. is a precision manufacturing company based in Payson, Arizona, serving the defense and civilian consumer markets. The company uses multi-axis CNC machining, advanced materials (stainless steel, titanium, and high-strength alloys), and an integrated process spanning computer-aided design and manufacturing (CAD/CAM), in-house production, precision metrology, and quality control. The company is a precision manufacturer and conducts its operations in compliance with applicable federal and Arizona law. AI design, manufacturing, quality control, and testing take place at its Payson, Arizona facility.
S5922	Mainstream AI, LLC	Small Business	4/1/2026	4/1/2027	Active	Joyel Miranda	800-881-8997	Scottsdale	Technology	Mainstream AI is a software platform that helps small businesses and organizations create, manage, and distribute digital content more efficiently. The platform uses artificial intelligence to generate marketing materials and streamline publication, creation, and distribution. By automating content workflow management into a single system, Mainstream AI reduces the time and complexity required to maintain consistent online visibility. The solution is designed to support early-stage businesses and resource-constrained teams by enabling them to operate more efficiently without requiring specialized marketing expertise.
S5923	YellowBird Holdings, Inc.	Small Business	7/2/2026	7/2/2027	Active	Jarret Hamstreet	520-818-5705	Phoenix	Technology	Arizona will be the ideal place to make location and US ID for YellowBird Holdings. The company is an employer of the future. The company brings the notion of "Cig" working to professionals who are not good at marketing their skills. Businesses will benefit by hiring top quality environmental, health and safety workers while the professionals can tap into "fractional" work in their field. The solution is developed by Copax and P will be owned by YellowBird Holdings Inc.
S5924	ClaraDX LLC	Bioscience Enterprise	7/5/2026	7/5/2027	Active	Thomas M. Hoy	520-257-6525	Tucson	Technology	ClaraDX provides a subscription service, delivered via app based on the Merck Manual, designed to search healthcare professionals a clinical decision tool. Using AI via Claude (Anthropic API key), the app follows the same decision-tree as a physician based on patient history and runs symptoms and info through the Merck Manual online (a copyright free medical info source). It then generates a complete diagnostic workup, including SOAP notes, ICD-10 coded differential DX, referral orders and other diagnostic ordered in their offices.
